LARGEST CIRCULATION IN DULUTH. OFFICIAL PAPER OF CITY OF DULUTH. OFFICIAL PAPER OF ST. LOUIS COUNTY.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder ABSOLUTELY PURE

and producing such minds as Wergeland, Bjornson, Ibsen, Lie and a host of others. A brief review of the events which led up to Norway's independence may not be inappropriate at this time.

Great indignation was aroused in Norway by this treaty, and taking advantage of the intense feeling of the people, Kristian Fredrik, a Danish prince, who considered himself entitled to the throne of Norway, called a convention at Eidsvoll, Feb. 16, 1814, and explained his position.

A constitutional convention was then called at the same place, the first session being held on April 10. The convention lasted five weeks, drew up a constitution for Norway. This work was concluded on May 17, 1814, which date thus marks a new era in the history of Norway.

The king of Norway, however, was as weak on the battlefield as he was strong in the dancing hall—as cowardly before Swedish soldiers as he was valorous among Norwegian girls. The Norwegians were not permitted to risk their cause in a decisive battle, and one of their strongholds was surrendered without resistance.

The News Tribune is making frantic efforts to induce the people to read it. As an extra inducement it has cut the subscription price to 5 cents a week, and the next move will probably be to give it away.

A letter from Maj. Baldwin, correcting a recent error in these columns concerning the status of the Altamonte Water company's bill in congress, is published in this issue. The Herald has no desire to misrepresent Maj. Baldwin in any way.

The weather bureau at Washington on Saturday morning sent out a forecast of warmer weather on Sunday, and the local forecast was: "Generally fair, cooler tonight and Sunday."

Many will learn with regret of the death of Judge Westcott Wilkin, of St. Paul. For twenty-seven years he sat upon the bench of the district court in Ramsey county and was an able, upright judge.

Mrs. Lease wants to succeed Jerry Simpson in congress. It is her privilege to aspire to that honor, but the first question that will be asked in Jerry's district is: "Does she wear —?"

AMERICAN STORE. NOW COMES THE GREAT WEEK OF TRADE!

A Hat's a Thing To buy that requires the extreme caution from the wearer. We make a specialty of Millinery art and charge less than attemptors.

A Half a Hundred People snapped up the 75c Gloves selling Saturday. The buying will be heavier tomorrow. The sizes are yet unbroken—it's a splendid Glove opportunity.

Little Things, Such as Notions, Veilings, Ribbons, Lining, etc., are all making exceptional offerings.

Jackets and Capes Are the liveliest in selling ever before noted here; many more new things will be in tomorrow.

Your Money Is worth more in our Stocking department by a marked majority than anywhere else in this locality.

The Word Concerning Silks, Dress Goods and Laces is "busy"—there's a reason.

Corsets, Muslins, Underwear and Lawn Waists Of most interesting characters.

HOWARD & HAYNIE.

In the Organ Loft. Chicago Tribune: The choir was singing a new arrangement of the beautiful anthem, "Gloria in Excelsis." The pure sweet voice of the soprano rose clearly and distinctly in the solo.

The tenor ceased, and the basso, a solemn, red-haired young man with a voice like a foghorn, broke in: "No-say-ay-ther do they spin."

Then the voices of the three were lifted up in semi-chorus: "No-say-ay-ther do they spin." "No-say-ay-ther do they spin."

Virginia Enterprise: The Enterprise understands that Governor Nelson contemplates a visit to Virginia and the Mesaba at an early date. The governor has never visited the iron regions of his domain, and we opine he may find much to surprise and please him in the apparatus of rapid development and substantial backing of the Mesaba, the latest and greatest iron range in the entire Lake Superior region.

Crystall Falls, Mich., Diamond Drill: O. D. Kinney, a gentleman well known in Crystall Falls, is a candidate for the Republican nomination for member of congress for a Minnesota district. Mr. Kinney's long residence in iron producing countries, knowledge of their needs and general common sense and business ability render him peculiarly eligible to the honor, and the Diamond Drill sincerely hopes that these qualities will receive full recognition.

Congressional Candidates. St. Cloud Journal-Press: The Journal-Press is authorized to state that F. E. Sealie is not a candidate for this or any other office, and would not accept the nomination if tendered.

From Duluth to Portland. Olympia, Wash., Olympian: It has been said by one in a position to speak that Mr. Hill secured the money in England that he went after, the Great Northern will be extended from Seattle to Portland, by the way of Olympia.

Removed. The St. Paul & Duluth railroad ticket office is now located at 401 West Superior street, Palladio building. Telephone 88.

Final Assessment For Improving Oxford Street. For a Sanitary Sewer in Fifth Street.

ANSON IS AT IT AGAIN.

The Old Man is in the Baseball Harness Once More Spurring on the Chicago Colts.

Umpires Are Kings Now and Disgraceful Kicking to Be Stopped by Enforcing the Rules.

Breitenstein, the St. Louis Club's Pitcher, Considered the Best Left-Handed Twirler in the League.

What did I tell you? It is impossible to keep a good man down. The sale of the earth will rise to the surface. Uncle Adonis Constantine Anson is in harness once more, and if his string of Colts do not begin to move up to the front of the field under the old man's mount I shall be very much surprised.

If Anson's pitchers would do fitting work, his team would give satisfaction to Chicagoans. But with Hutcheson pitching every time he goes into the box, with McGill and Clausen far from rounded up into form and with his other free raw material an uncertain quantity, Anson doesn't exactly know where he is. But now that he has put Ryan into the outfield and has gathered up the reins in his own girth, knuckled and disoriented hands, you may expect to hear the crack of his whip and a great clattering of hoofs upon the League highway.

London is negotiating with Sir Arthur Sullivan to write the music for a new ballet. Charles Hawtree, the author of "The Private Secretary," having safely gone through bankruptcy in London, contemplates tour of the United States.

Branden Thomas, author of "Charles's Aunt," has taken the Court theater in London for the production of his new play, "Marriage."

"The Two Orphans" will shortly be revived at the London Adelphi, where "The Cotton King" is now running.

Tony Pastor's last surviving sister is dead, and he is now the sole living representative of a family of four brothers and two sisters.

At a reception given her by the Women's club in New Orleans, Mrs. D. P. Bowers, in answer to a question if the stage offered a favorable career to young ladies, said she would unhesitatingly advise them to stay at home. It meant, at best, a great deal of hard work and very little to show for it.

"On the Mississippi" is the title of Joseph Haworth's new play.

When Irving visits this country in 1895, William Terris will take the Lyceum theater, London, and present there an American star.

A member of Clara Morris' company says that Eltonora Duse is the only actress Miss Morris is jealous of.

A deal has been made by which Arthur Roberts and a London company will come over here to play "Don Juan."

The company now playing "The Gaiety Girl" at the Prince of Wales theater, London, will begin on Sept. 17 an engagement at Daly's theater, New York, after which it will make a tour of the principal cities.

Thomas W. Keene is agitating the idea of a national theater and urges the advisability of legislation tending toward the establishment of a theater directed by a board of control composed of representative actors and managers. The tragedian would like to see Joseph Jefferson at the head of the enterprise.

Zimmerman's Rival, Harris.

In Harris, Zimmerman will find a formidably worthy of his steel if his records against time are any criterion. Here are some of them: Quarter, 2:27 1/2; half, 4:53; mile, 9:54 1/2; two miles, 19:50. These performances, however, were made under the most favorable auspices, with skillful pacemakers to assist him. Zimmerman is not much of a record maker, but he manages to beat all the record breakers. In this country Tyler, Johnson, Sanger and others have made some wonderful performances in private and against time, but when they meet the great "Zimmie" they were forced to bow to his superiority, and the probabilities are that Harris is a peculiar chap. No matter how fast his opponents ride, he pedals just fast enough to get his wheel over the line first.

In addition to Harris, however, there are several French riders who will make Zimmerman do his best. Certain it is that whatever he wins in France will be well earned.

Small, but Powerful.

One of the best developed athletes in America is B. A. McFadden, who recently made New York his home with a view to teaching his system of training. He is 5 feet 10 inches tall, 25 years of age and weighs only 145 pounds, but his physical

The news of the death of the veteran Bob Ferguson in Brooklyn on May 8 sent a feeling of sadness to people wherever baseball is a game is known. He was one of the most famous of the "old guard." His fame was won as second baseman and captain of the old Athletics of Brooklyn in the sixties and seventies, and it was his work and generalship which went far toward bringing to the Athletics the glory of defeating the Cincinnati Red Stockings in June, 1870, and ending thereby their remarkable chain of victories.

In later years he became an umpire of recognized fairness and merit. Then he tried to manage the Metropolitan team, when Erasmus Wiman owned the club, but was not a great success in that line. No man ever played ball who was more highly and justly respected than Robert Ferguson. His honesty was always above suspicion, and scandal never breathed a word against his upright life professionally.

The National league line in its ranks this year about 15 left-handed pitchers. Of them all it remains an open question which is the greater—Killen or Breitenstein. The latter stood third in the list of all the League players last season. He performed the remarkable feat of shutting out the Louisville without a hit and would have done the same to the Brooklyn had it not been for a scratch single on a ball which dropped before the plate. His work this year has been almost invincible, and his friends expect to see him very early lead the League pitchers. Theodore is a St. Louis boy by birth, is 24 years old and quite a favorite at home and abroad.

Mr. Von der Ahe likes him for many reasons, principally because he can sometimes swear at him in German and know that he is understood. O. P. CAYLOR.

THEATRICAL TALLE.

Marie Jansen will next season star in a farce comedy by Glen MacDonough entitled "Miss Dynamite."

The management of the Empire theater in London is negotiating with Sir Arthur Sullivan to write the music for a new ballet.

Charles Hawtree, the author of "The Private Secretary," having safely gone through bankruptcy in London, contemplates tour of the United States.

Branden Thomas, author of "Charles's Aunt," has taken the Court theater in London for the production of his new play, "Marriage."

"The Two Orphans" will shortly be revived at the London Adelphi, where "The Cotton King" is now running.

Tony Pastor's last surviving sister is dead, and he is now the sole living representative of a family of four brothers and two sisters.

At a reception given her by the Women's club in New Orleans, Mrs. D. P. Bowers, in answer to a question if the stage offered a favorable career to young ladies, said she would unhesitatingly advise them to stay at home. It meant, at best, a great deal of hard work and very little to show for it.

BOOK OF THE BUILDERS. For all persons; some for about one person in every ten; others for about one in twenty. And so the proportion could be continued until it reaches the most exclusive and special circulation which appeals only to a narrow circle of connoisseurs or specialists in any branch of study.

Assessment Notice. Sewer in Third Street. Office of City Comptroller, Duluth, Minn., May 15, 1894. Notice is hereby given to all parties interested that an assessment has been made by the board of public works of the city of Duluth, Minnesota, and confirmed by the Hon. D. H. Munger, Judge of the District Court, of the Eleventh Judicial District, to defray in full the expense of constructing a sanitary sewer in Third street, from Ninth street west to Twentieth street.

SCHIFFER'S SALE OF REAL ESTATE UNDER JUDGMENT OF FORECLOSURE. COUNTY OF ST. LOUIS, MO. August Filger and Percy S. Filger, co-defendants, vs. Plaintiff.

NOTICE OF APPLICATION FOR LIQUOR LICENSE. STATE OF MINNESOTA. County of St. Louis, Minn. Notice is hereby given, that application has been made to the common council of said city of Duluth, Minn., in my office, for license to sell intoxicating liquors for the term commencing on May 9, 1894, and terminating on May 9, 1895, by the following persons, and at the following places as stated in said application respectively, to-wit:

Remember that the Cost of the Popular Edition (so far from being one hundred dollars) is simply Twenty-five Cents a Part, and as the work is published in Twenty-five Parts, appearing fortnightly, the actual cash outlay is only One Cent (and a fraction) per day. For Each Copy There must also be presented requisite number of coupons, of different dates, but those who are regular readers and subscribers of this paper can, of course, secure these coupons without extra cost. And it is for this class alone that we have gone to the trouble and expense of securing this important work.

THE GREAT SINGERS

Part XIII THE ART PORTFOLIO OF STAGE CELEBRITIES READY TODAY! It is the best number yet and contains portraits of Emma Calve, Emma Abbott, Eteleka Gerster, Annie Louis Cary, Emma Abbott.

And fifteen other great singers and celebrities of the operatic stage. Three coupons and 10 cents secures it. The musical numbers are the most popular of all. Secure it while you may at the office of The Duluth Evening Herald.

A Cent (or so) A Day AND THE GREATEST OF MODERN BOOKS IS YOURS. WE ARE RESPONSIBLE FOR THIS AND IT IS ALL OWING TO OUR ENTERPRISE THAT THIS COSTLY PRODUCTION CAN BE HAD BY YOU. WE REFER TO THE

History of the World's Fair (THE BOOK OF THE BUILDERS) BY THE MEN WHO BUILT IT, D. H. BURNHAM, DIRECTOR OF WORKS, AND F. D. MILLET, DIRECTOR OF DECORATION. IT IS THE ONE BOOK ON THE SUBJECT WHICH COVERS THE WHOLE GROUND.

A Northwestern Candidate. The Chicago Mail believes that the next Republican candidate for president should be taken from the Northwest. In reaching this conclusion it takes full account of the growth of Populist doctrines and the danger that Populist-Democratic fusion may throw the election of presidency into a Democratic congress.

Better Stay at Home. The St. Cloud Journal-Press of yesterday said: "It is announced that certain of Mr. Towne's strikers will come to St. Cloud in a few days for the purpose of capturing this county for him. There is not the slightest objection to their making all sorts of trouble in the county, but the strikers will make up their minds what they want to do without any outside assistance. And this may be set down as a fact: They will have nothing to do with any Duluth man who has a fight on at home."

NOTICE OF MORTGAGE SALE. Default has been made in the payment of the sum of eight hundred dollars interest, which became due and payable in three several installments of two hundred dollars each on February 1st, 1893 and August 1st, 1893, respectively.

World's Columbian Exposition. Was of value to the world by illustrating the improvements in the mechanical arts and eminent physicians will tell you that the progress in medicinal agents, has been of equal importance, and as a strengthening laxative that Symp of Figs is far in advance of all others.

A New York paper says: "If the tariff bill is ever passed the saddest men in the country will be the ones that have found a picnic in the manipulation of the stock of the sugar trust. The imbecility and trickery of the senators who control the tariff situation have put millions into their coffers. Every day's delay and uncertainty affords these speculators fresh opportunities to feather their nests."

A Similar Complication. The strained relations between Brazil and Portugal resulting from the extension by the Portuguese men-of-war of the right of asylum to the defeated rebel Admiral da Gama has recalled to the naval officers at Washington a complication of a similar nature in which the United States was involved with Brazil, and in which we were guilty of a much more flagrant violation of international law than is charged against Portugal. It was in the days of our civil war, when the Alabama and Shenandoah and other Confederate cruisers were working havoc to our commerce that Capt. Collins, of the U. S. S. Wachusett, finally cornered the Shenandoah in Rio harbor.

NOTICE OF MORTGAGE SALE. Default has been made in the payment of the sum of eight hundred dollars interest, which became due and payable in three several installments of two hundred dollars each on February 1st, 1893 and August 1st, 1893, respectively.

The Independent Organization of the Second Assembly District, of New York, has passed a resolution requesting the opinion of Judge Divver on the constitutional right of Coney to speak from the capitol steps at Washington. An opinion from such an eminent judge on a constitutional question will be awaited with interest.

Senator Voorhes is again making guesses on the probable revenue under the latest proposed tariff schedules. Will the Hoosier statesman venture a guess as to the date when the Democratic senators will agree on a tariff bill?

A Weak Digestion strange as it may seem, is caused from a lack of that which is never exactly digested—fat. The greatest fact in connection with Scott's Emulsion appears at this point—it is partly digested fat—and the most weakened digestion is quickly strengthened by it. The only possible help in consumption is the arrest of waste and renewal of new, healthy tissue. Scott's Emulsion has done wonders in Consumption just this way.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

adjusting the wage difficulties between miners and operators, will result in this conference of mine owners and nine workers reaching an agreement on a permanent wage scale under which the men can earn a living for themselves and families, and in the meantime he advises the men to hold out. No one can read the facts and figures which he has presented without feeling a keen sympathy for the striking miners.

Disposal of Sewage.
The city of Glasgow, Scotland, has placed in operation a sewage disposal plant in which the sewage is treated chemically by a process which makes the liquid portion as pure as spring water, and which converts the precipitated solid matter into cakes of fertilizing material. The process in this instance is economical as well as effective, because some return is derived from the fertilizing material produced.

The Coal Miners' Strike.
Committees of the coal operators and miners began a conference at Cleveland yesterday to endeavor to reach an agreement on a wage scale that would be satisfactory to all interests and would put an end to the strike that is now crippling railroads, factories and mills who are unable to obtain sufficient fuel for their requirements. So far the conference has not resulted in an agreement. The men demand a return to the old scale of wages which was in force previous to several reductions which have been made during the past year.

Chicago has now reached a point where this problem is pressing for a solution. The purity of its water supply is vitiated by the manner in which its sewage is disposed of, and various plans have been proposed for disposal of the sewage, but no plan that fully meets all the difficulties has been suggested. The experiment made at Glasgow may solve the problem, which Duluth will also have to face at no late date.

The appointment of W. E. Lee, of Long Prairie, to be superintendent of the St. Cloud reformatory, owing to D. E. Myers' resignation, is a surprise, as no one in this section of the state supposed he wanted an office of that character. It was quite generally believed that he was thinking of becoming a candidate for congress or running again for member of the legislature.

If the Fall Mail Gazette has an authority for its anecdote of an English clergyman exclaiming "Mother Church" as standing "with one foot firmly planted upon earth and the other pointed towards heaven," it would seem as if the reverend gentleman had been to see some skit dancing.

The Minneapolis papers say that Dr. Rice, the winner of the Brooklyn handicap, is a Minneapolis horse, and the St. Paul papers say he is a St. Paul horse. As Fred W. Foster, the owner of Dr. Rice, lives in St. Paul, the papers of that city seem to have the best of the argument.

The city of Minneapolis owns its own waterworks system, and the Tribune asserts that its operation shows an annual deficit of a great many thousand dollars.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. **Royal Baking Powder** ABSOLUTELY PURE

tion would work less hardship and meet with less objection than at the present. It is equally true that at the first symptoms of a revival in industrial establishments here the news will spread through Europe and there will be another rush to this country flooding the American labor market once more to the injury of the laborers already residing here. Congress could do nothing more popular than to pass legislation that would cure this evil.

The Nicaragua Canal. The Glencoe Register says: "We notice that Senator Davis, of this state, is reported to be against the Nicaragua canal, does not believe a canal is desirable by the United States, and will make a speech against it whenever it is brought up. We hope that this report is not true, for we would not like to think that of a man whom we had always admired."

The Register evidently does not fully understand the position of Senator Davis on this question. He is not opposed to the Nicaragua canal, if it can be constructed without perpetrating a steal upon this country, but he is opposed to the bill fathered by Senator Morgan, which pledges the credit of the United States to the extent of \$100,000,000 to a private company that would be a medium through which a number of men would become enriched at the expense of the national treasury.

Benefit to Lake Commerce. The Atlantic pilot chart issued by the hydrographic office has proved so useful that Hydrographer Sigsbee has published a similar chart for the benefit of commerce on the great lakes. The first issue has just appeared and the hydrographic office invites suggestions tending to improve the chart.

The leading feature of the first issue is the simple and graphic information supplied to mariners in regard to compass variation. The chart shows the variation at every point and contains a set of instructions to lake sailors for correcting compass courses so as to reach the true course. Another feature is the diagrams illustrating the methods of applying oil to still waters in storms, which have proved so effective in saving ships on the ocean.

The lake captains will find this chart of great benefit to them in many ways and they should aid the hydrographic office in improving it by responding to the request for suggestions in that direction. A perfect pilot chart of the great lakes would undoubtedly save a number of vessels from disaster.

An Aberdeen, S. D., dispatch says: "A fine rain fell over this immediate section last night and crops are greatly refreshed. The rain wizards who have been working since Tuesday are delighted with the results, which they largely attribute to their efforts." This arouses a grave suspicion that some person was operating a shower factory in Duluth during the past few days.

The Boston Transcript thinks that from the number of disappearances lately one might have an idea that perhaps Professor Totten's prediction is coming true. A while ago this famous Adventist predicted that from this time on the human race would be gradually exterminated, people disappearing from their friends one by one, never to be heard of more.

The Princeton Union moves that the Sixth congressional district Republican convention be held at Brainerd, and the Elk River Star-News says: "We second it. Brainerd used the boys first rate when they were there two years ago, and it is as convenient a place as any in the district."

On a recent Sunday one Massachusetts clergyman discoursed on the sanitary condition of a schoolhouse, and another stirred up his hearers about certain changes in the police force. It would be a rather bold stretch of imagination to call this preaching the gospel.

Gen. W. S. Hancock was right when, in 1850, he said: "The tariff is a local issue." The debate in the senate proves the correctness of his assertion. The latest improvement promised in the telephone is a device which will enable one to see the person speaking. It will be some satisfaction to see what kind

GIVES HIS REASONS.

Receiver Silvey Explains Some Matters in Connection with His Administration of the Emerson Estate.

The Lease the Only Real Assets and to Hold it the Hotel Had to Be Operated.

Oppel & Sons and the City Sued by W. N. Edmondson for Injuries Received on the Street.

W. B. Silvey, receiver of the Emerson estate, yesterday filed a statement explaining certain movements of his which have been objected to by some of the creditors. He shows that by closing the hotel in his taking the receivership he would have caused the creditors to lose a great part of their claims, because the available assets then were but small. A \$35,000 mortgage covered the lease, the most valuable part of the estate, and the furniture. He claims that the unsecured creditors would not have got 1 per cent of their claims.

He showed that the only way to hold the lease was to run the hotel through the winter, necessarily at a loss of from \$500 to \$10,000. This spring the lease provides for free rent, and this loss he expected to make up then.
The hotel is now being operated at a profit. To close it now would leave the assets about where they were when the receiver took hold of it, but to run it a few months would make good all the loss incurred and make substantial returns to the estate.

He closes by calling the recent petition for an accounting an attempt to wipe out unsecured creditors by forcing a sacrifice sale of the property.

C. A. Wright, assignee of Foran Bros., has filed a report of the estate. He says that he has, after adjusting the affairs to the best advantage, assets to the amount of \$12,000. There are liabilities to the extent of \$12,48, on which he asks permission to pay a dividend of 51 per cent.

W. N. Edmondson has filed a suit for personal injury against C. H. Oppel & Sons and the city of Duluth, asking \$5000 damages. He complains that C. H. Oppel & Sons had on the night of Feb. 20, 1894, four dry goods boxes in front of their store obstructing the sidewalk. He struck his foot against one of them and fell, breaking his left knee pan. The city is implicated for allowing the firm to leave the obstruction on the walk contrary to the city ordinance.

Marquette Firm Successful.

Bids were opened by Maj. Sears at 10 today for the extension of the breakwater at Marquette. They were as follows: Francis L. McDonald, of Duluth, \$6485; William McLeod, of Marquette, Mich., \$6330; George Taylor, of Duluth, \$6300; Powell & Mitchell, of Marquette, \$5745.
The bid of Powell & Mitchell, of Marquette, has been recommended for acceptance.

Threw a Stone at Him.

H. R. Tinkham made a complaint against Fritz Uden this morning, charging him with assault. The complainant alleges that Fritz, who is a 17-year-old boy, did his unlawful act by throwing a stone.

Has Entered the Firm.

Charles A. Stark, who has for five years been connected with the Marshall-Wells Hardware company in this city, has associated himself with the firm of R. A. Taussig & Co. He will hereafter devote his energies to the insurance business. Mr. Stark has many warm friends and will undoubtedly add material strength to the firm of which he has become a member.

Frank Cutting a Deputy Marshal.

United States Marshal Bode today appointed F. H. Cutting, the well known attorney and Democrat, deputy United States marshal for Duluth and vicinity. The report that Daniels had been appointed was erroneous. That gentleman was an aspirant for the appointment, however.

Secured a Search Warrant.

The city detectives this morning secured a search warrant for the purpose of going through the house of Cyrus Cresswell who lives at the foot of Twenty-third avenue east. It is suspected that some electric bells stolen from L. J. Taussig are concealed in Cresswell's domicile.

Will be Inspected.

Gen. Prcy will be up from St. Paul tomorrow and tomorrow night will begin the work of inspecting the Duluth battalions. Company G, of West Duluth, will be inspected tomorrow night, Company A, of Duluth, Monday night, Company H, of West Duluth, Tuesday, and Company C, of Duluth, Wednesday.

The Social Science Club.

The Social Science club at Pilgrim church parlors next Monday evening will discuss "Profit Sharing." There will be a paper by B. C. Church explaining the system as employed in the Imperial mill.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Cows for Sale.
One car load of milch cows arrived today. Can be seen at St. Paul & Duluth yards, foot of Second avenue east.

Contractors and Builders.
Atwood, Larson & Co., 313 Lake avenue, handle lime, cement, brick, building paper and other builder's supplies.

I will sell within the next five days forty acres, five miles from Superior street at such a low figure it would "bust" the market to advertise the price here. **GEORGE P. TYRIN.**
100 Palladio.

EXTENDED A CALL.

Rev. T. H. Clelland Invited to Fill the Presbyterian Church Pulpit.

The First Presbyterian church society extended a unanimous call last evening to Rev. T. H. Clelland, D.D., who is now pastor of Calvary Presbyterian church. He has already assured the congregation of his acceptance and that he will be ready in four weeks.

There was quite a sentiment in favor of Rev. Mr. Ingalls, of Chicago, but it was doubtful if he could come for some time. The informal ballot showed 78 votes for Rev. Mr. Clelland and 34 for Rev. Mr. Ingalls. The vote was made unanimous.

Rev. Mr. Clelland has preached here two or three Sundays and has made a very favorable impression. The salary was fixed at \$3500 and a vacation of six weeks between April 1 and Nov. 1 provided for.

W. D. Edson was elected to fill a vacancy in the session caused by the resignation of H. W. Coffin who is now a member of the Glen Avon Presbyterian church.

Officer Smollett's Hens.
Last night Officer McLennan encountered one John Aspund, bearing a gunny sack. In it were found several fine Plymouth Rock hens, whose bodies were yet warm. Not being able to give a satisfactory account of himself and the possession of the fowls, Aspund was taken to police headquarters and locked up. Shortly after, Officer Bob Smollett came into headquarters. Out of curiosity, he took a look at the dead fowls. Pretty soon the air was blue with language more forcible than elegant. Smollett identified the hens as belonging to himself. Aspund had picked the henhouse lock and taken Bob's blooded biddies.

MONEY ON HAND TO LOAN FOR RENT CHEAP.
Steam heated flats in Mason Building. Houses and Stores in best locations.
Stryker, Manley & Buck

Abandoned the Train.
The Omaha train to St. Paul was abandoned altogether last night on account of washouts at Hudson, and it will be several days before the line is repaired. The passengers are transferred at Hudson. This morning's Chicago train was an hour and a half late. All the other trains are on time. The Wisconsin Central line to Chicago is clear, but the line from Abitoford to St. Paul is knocked out completely and will be for several days.

Only Covered the Land.
The sale of Boyle Bros' property on Superior street to Mrs. Humphrey, of Minneapolis, did not include the building, as was previously stated, but merely covered the land. Boyle Bros. remain the building and have a 50-year lease.

Charged With Stealing.
Dave McArdle, brother of Hattie, the girl peddler nuisance, and Abe Williams, alias "The Popcorn Kid," have been arrested for stealing a job lot of trinkets from the office of Dr. Davis on Garfield avenue yesterday. Each boy lays the job onto the other and it is thought by many that a little dose of justice, judiciously administered, will not hurt either.

Only one coupon and 25 cents secures the "Book of the Builders" hereafter. Five cents extra if sent by mail.

Part XIII is ready today.

CUBAN UPRISING

Inner Diplomatic Circles at Washington Agitated by Report of Another Cuban Uprising Soon.

A Detective Agency Has Been Working for the Spanish Minister in Several Leading Cities.

Enough Facts Gathered to Justify the Belief That Cubans Are Preparing for Another Revolt.

Receiving Assistance in the Form of Money and Munitions of War from This Country.

WASHINGTON, May 19.—It is reported today in inner diplomatic circles that another uprising in Cuba is imminent. For over two weeks lengthy cable dispatches in cipher have passed between the Spanish minister to the United States, Senor Don D. Murigua, and Madrid, and a representative of one of the leading detective agencies of the country has been a frequent visitor to the residence occupied by the legation.

It is understood that the agency in question has had its operators at work for several months in New York, Philadelphia, Chicago and other cities, and that enough facts have been gathered to justify the belief that Cubans are preparing for another revolt against Spanish rule, and that they are receiving material assistance in the form of money and munitions of war, as well as in the shape of advice and suggestions from their countrymen in the United States.

In the three cities named, secret meetings of Cubans are said to have been of nightly occurrence for several months past, and in the proceedings a number of exiles have taken part. Whether or not, however, an expedition from this country has been planned is not definitely known.

It is certain at least that neither the Spanish minister nor Senor Sagrario, the first secretary and charge d'affaires, have considered it necessary so far to make any representations on the subject to Secretary Gresham.

Activity in Philadelphia. PHILADELPHIA, May 19.—That something unusual is about to occur in Cuba seems to be apparent from the unwonted activity of a large number of Cuban residents in this city, which has always been the headquarters of the leading spirits in the movements for the emancipation of the island from Spanish rule.

Two Thousand Held an Open-Air Meeting to Demand Work. MINNEAPOLIS, May 19.—There was a large but orderly meeting of the unemployed on the Haymarket this morning. It is estimated that at least 2000 were present, most of them claiming to be out of work. The object of the gathering was to awaken public sympathy in practical measures for furnishing work to the unemployed.

It was resolved to ask the mayor and council to furnish as much work as possible on public improvements, and for the purpose of directly influencing the aldermen it was determined to organize the unemployed into ward clubs which should apply to the aldermen individually.

Gen. Holm expects to take 400 men out of town this afternoon as a Coxeys contingent.

Killed by a Storm. DALLAS, Tex., May 19.—A storm near Waxahatchie last night destroyed the house of a farmer named Merriman, killing himself and wife and badly injuring their three children and two young men stopping there.

Great Damage by Frost. OMAHA, May 19.—The frost last night did immense damage to crops. Ice formed a quarter of an inch thick and vegetation on low land was cut down.

Hail Storm in France. TOURS, France, May 19.—A terrible hail storm lasting an hour swept over this city yesterday evening and did immense damage to the crops in the vicinity.

A THIRTY-YEAR'S SENTENCE. Rapist Battleson Taken from Fergus Falls to Stillwater.

ST. PAUL, May 19.—A Fergus Falls, Minn., special to the Dispatch says: Rapist Battleson, who was captured day before yesterday after an exciting chase with guns, was indicted and pleaded guilty yesterday and was sentenced to thirty years in the penitentiary.

After the Industrialists. SPOKANE, Wash., May 19.—Judge Hanford has issued an important writ to United States deputy marshals here. They are directed to bring each east-bound freight train between Sprague and the Idaho line, and warn industrialists not to climb aboard. Those who disregard the warning will be arrested and conveyed to Seattle.

Serious Trouble Predicted. DENVER, May 19.—Coal Mine Inspector Reed predicts serious trouble at Sopris, near Trinidad, where he says, the Colorado Fuel and Iron company is maintaining sixty-three deputy sheriffs to protect its property against 350 half-starved strikers.

CAPTURED BY COXEYITES. A Freight Train on the Northern Pacific in Montana Seized and Started Eastward Today.

MINNEAPOLIS, May 19.—A Missoula, Mont., special to the Journal says: A band of 150 Coxeysites of the Seattle-Spokane detachment captured a freight train on the Northern Pacific at Heron, a few miles west of the Idaho line and 150 miles west of this city, this morning, and started eastward.

A force of fifty deputies heavily armed, and headed by Sheriff Ramsay, left here on a special train at 11:30 to intercept the industrialists and attempt to recover the train and arrest the men. It is expected it will be a difficult undertaking as the Coxeysites are determined, and in a bad mood over alleged rough treatment at the hands of deputy marshals scattered along the line between this city and Spokane.

Later—a second freight train has been captured by an industrial mob numbering over 100, at a small station on the Coxeys' mining division. The troops at Missoula have been ordered to send detachments after the trains, and both parties will probably be under arrest tonight.

CHICAGO ALDERMEN INDICTED. Nine Men Charged With Violation of the Election Laws.

CHICAGO, May 19.—Two aldermen, three police officers and four judges and clerks of election were indicted by the special grand jury for violation of the election laws. The men indicted are: Alderman John McGilgan, interfering with voters; Alderman John J. Connelley, Hugo Malinowsky, refusing to preserve order at the polls; O. Willits, Alonzo Lee, Albert Lee, William S. Darrow, clerk of a judges election.

Other indictments of various city officials are expected to follow.

Kelly's Army. KROOK, Iowa, May 19.—Kelly's army landed three miles below the city on the Missouri shore today where provisions were delivered. The next objective point is Quincy. The boats will be rafted together there and towed.

Died of Peritonitis. INDIANAPOLIS, May 19.—Dr. Elijah S. Elder, one of the most prominent physicians of the state, is dead of peritonitis. He was president of the Indiana Medical society, and was 53 years of age.

Cut to the Ground. MINNEAPOLIS, May 19.—Specials to the Journal from points in Northern Iowa, Southern and Central Minnesota and Western Wisconsin say that there were heavy frosts last night cutting corn and garden stuff to the ground.

Illinois Apportionment Valid. DANVILLE, May 19.—Judge Beck, waiter today sustained the Democratic congressional apportionment of Illinois and denied the application of the Republican petitioners for an injunction.

Traffic Resumed. ST. PAUL, May 19.—A New Richmond, Minn., special to the Dispatch says traffic has at last been resumed on the Chicago, St. Paul, Minneapolis & Omaha and the Wisconsin Central railways with some regularity for the first time since the Tuesday night washouts.

LAKE DISASTERS

Many Vessels Fell Victims to the Terrible Storm on Lake Michigan and Were Sunk.

There Was Heavy Loss of Life, One Schooner Going Down with All on Board.

Four Men Drowned This Morning While Trying to Rescue a Crew at Port Huron.

The Action of the Life-saving Crew at Milwaukee Yesterday Is Being Severely Condemned.

CHICAGO, May 19.—Thousands of spectators watched from the lake shore the destruction of the craft that had been beached during the storm of yesterday and last night. At Twenty-seventh street, the McLaren was pounded to pieces fifty yards from the shore, and her destruction will be complete before the surf quiets.

The schooner Goodwin, which was reported to have gone ashore at Third street early today, succeeded in clearing the beach and is riding safely at anchor. When reached by the life-savers, the crew refused to abandon the vessel, all danger was past. The vessel off Twenty-second street, supposed to be waterlogged, was identified as the Morning Star.

Eight or more vessels were driven ashore within the city limits of Chicago by the storm and are total losses. Ten were reported to be ashore at the schooner Myrtle going down in plain view of hundreds of people who lined Michigan boulevard. Among the vessels wrecked were the schooner Hall, Myrtle, Jack Thompson, Evening Star, Mercury, Loomis McLaren, Racing Bow and C. J. Mixer. All were schooners. The dead are: Anton Anderson, of Manitowish; Charles Cantlers, of Chicago; Jos. Phelan, of Sturgeon Bay; Thomas Kelso, of Chicago, and six men forming the entire crew of the schooner Myrtle.

Two bodies were recovered from the lake this afternoon near Fifty-fifth street. Both were evidently those of sailors and one was identified by papers as B. Thompson.

One result of the storm was the destruction of the old cottonwood tree which stood on Eighteenth street, and the shade of which the terrible Fort Dearborn massacre was perpetrated by the Indians Aug. 15, 1812.

THE MILWAUKEE DISASTERS. Two of the Cummings' Crew Died in the Rigging and Four Drowned.

MILWAUKEE, May 19.—The wind is still blowing strongly from the northwest today, but no new disasters are reported. As yet no attempt has been made to recover the bodies of the woman and the seaman, which are lashed to the rigging of the sunken schooner Cummings. An effort to land the bodies will undoubtedly be made before nightfall.

The life-saving crew are condemned on all sides for their inefficiency yesterday. The belief is universal that every one of the Cummings' crew could have been saved if prompt efforts had been made. The dead are: Capt. J. McCullough, of Marine City; Mate Timothy Bosour, of Buffalo, N. Y.; Thomas Tusk, sailor, of Marine City; unknown sailor, of Marine City; sailor named Jim, of Buffalo, N. Y.; Robert Patterson, of Kingston, Ont., and Frank Gordan, surman, of the life-saving station, were saved.

Blowing a Gale at Alpena. ALPENA, Mich., May 19.—No definite news has been heard this morning from the schooner Ishpeming, which suffered so severely off Presque Isle yesterday. It is thought she rode out of the gales safely.

THE SEMINARIES

The General Assembly of the Presbyterian Church at Saratoga Discussing Control of the Seminaries.

A Majority Report in Favor of Complete Control Being Exercised by the General Assembly.

Minority Report Opposed to Such a Plan and on This Issue the Fight Begun.

An Animated Discussion Was Started This Morning and Was Adjourned at Noon Until Monday.

SARATOGA, N. Y., May 19.—The subject of the proposed closer relations between the general assembly and the various Presbyterian theological seminaries with a power of absolute control over them on the part of the general assembly, which was sprung upon the commissioners near the close of yesterday afternoon's session, has been the subject of conversation and conference ever since.

When it was proposed to make the discussion a special order for this afternoon, a member of the board of directors of McCormick's seminary at Chicago objected very vigorously, saying that such an arrangement would cut off many from taking part in the debate, since they had been appointed to preach in out-of-town pulpits. The final arrangement provided for deferring today's regular order for 10 o'clock, substituting the two reports of the committee which has been considering these important subjects for two years.

The adoption of the minority report simply would leave things where they are, while the outcome of the majority report would be a renewed battle between the seminaries and the assembly. Some of these institutions are already upon the proposed basis, while others are not. The success of the matter in the long run must depend upon the grit of the trustees and their readiness to fight for their independent corporate existence.

When the assembly met today it was with the prospect of a hot and perhaps acrimonious debate. After the devotional services, led by the moderator, miscellaneous business was conducted for half an hour. A report came from the committee on bills and overtures on reunion with the Southern Presbyterian church. Without discussion, a resolution was adopted by a rising vote, and with applause, providing for the appointment of a committee of nine to take into consideration the whole question of organization with that church on the basis of the common standards of doctrine held by both sides.

The clerks were authorized to send fraternal greetings to other churches now in session, the Southern Presbyterian church at Nashville, the Cumberland church at Eugene, Ore., and the United Presbyterian church at Albany, Ore. Elder John J. McCook, of New York, was appointed vice moderator, a new departure in the practice of the assembly. The subject of theological seminaries was opened by Dr. William C. Young, chairman of the committee. He began by speaking of the wide import of the question, suggesting that the agitation of the past two or three years had been providential and was intended to lead to a careful examination of the methods heretofore in vogue and the substitution of a better system.

The speaker then went on to review the work of the committee and to explain the provisions of the majority report, claiming to have given the widest liberty to the seminaries and to have still secured the right to the assembly to direct and control them, with full power to enforce any rights that may be obtained. The principles of the report were declared to be reasonable and moderate.

The leading questions involved in the new proposals of the committee were discussed by Thomas MacDougall, of Cincinnati. He took for his text the recommendation of the committee, "that each and all of the seminaries of this church be required to secure, at the earliest moment practicable, such changes in their charters, or amendments thereto, as will provide for the assembly's control that is desired to be secured."

Seminaries, Mr. MacDougall said, are civil corporations which come to the Presbyterian church saving that they wish the patronage, approval and business of the church in educating ministers. There is, therefore, no reason why the church may not prescribe the terms upon which they may be received.

Dr. William E. Moore, permanent clerk of the assembly, followed explaining the report of the minority. The original appointment of the committee had nothing to do with the property of the seminaries, but only with the regulation of the teaching forces.

Previous decisions of the assembly have been from the beginning in a line quite the opposite of that now proposed. Synods and presbyteries have the power to establish seminaries and the presbyteries have the right of original jurisdiction over its members and professors. In the assembly there is power of visitation and the right to remove causes of complaints. The assembly has also power of "review and control" upon sufficient information and may thus also remove abuses. The minority does not wish to bring in the civil power when its own power is sufficient to meet the requirements of the case.

IN THE KENTUCKY MOUNTAINS. A Family Passing Rich With a Fortune of Twenty-seven Dollars. "I had a glimpse of life in the Kentucky mountains one day that I will not soon forget," said a capitalist, a reporter.

"I talked to the woman for about an hour, and succeeded with great difficulty in getting her story. Her pride stood in the way of her telling me anything of a long time. During all the time in which she talked the expression of dull listlessness, to which her face had become habituated, never left her face."

THEY PLAY GOOD BALL. The University of Michigan Nine is One of the Northwest's Great Teams. College baseball is not so old in the great northwest as it is in New England, but for all that several of the finest former section put up a very good article of baseball.

Chamberlain of Human Bones. In the center of the arched roof of All Saints' church, Seattle, in Bohemia, hangs a chandelier constructed entirely of human bones.

Elliptics at Funerals. At the funerals of great personages, the old chronicles tell us, "his lively elliptic" dressed to imitate life, was carried in a chariot before the corpse to the grave, then there set upon a "hearse" or a temporary monument in the church.

How to Make Farming Pay. The drive between Plymouth and Center Harbor is set down as a notable one, but take care to make it from Center Harbor to Plymouth, instead of the reverse.

Supporters of the Actors' Fund. It is an extraordinary fact that the number of actors and actresses who maintain membership in the Actors' fund by payment of annual dues of \$2 is less than 400.

Optimistic. "Bliven asked Miss Parselgh how old she was," said one to another. "Did she get angry?" "No. She was flattered. She thought she must look very young or he'd never have asked."

Only one coupon and 25 cents secures the "Book of the Builders" hereafter. Five cents extra if sent by mail.

Miss Cora Payne spent several days last week visiting friends.

Mrs. Overton is in Duluth the greater part of this week visiting her sisters, Mesdames Seymour and Marston.

Andrew Nelson is building an addition to his house 14 by 16, one story high.

Mr. Edwards has improved the appearance of his residence by the addition of a veranda.

M. S. Stokely came out fishing yesterday, but found it rather chilly on the lake.

The program arranged by the E. L. S. for this evening is as follows:
Address..... Mr. Douglas
Song..... Miss Kacey
Lecture..... Mr. Smith
Reading..... Mrs. Smith
Recitation..... Miss Smith
Song..... Miss Smith
Lecture..... Mrs. Smith
Reading..... Miss Smith
The journal is edited by Harvey Dash. The meeting will be at the residence of V. A. Dash.

West End Notes.
The ladies of the Second Presbyterian church gave a strawberry social Wednesday night which was well attended in spite of disagreeable weather. Everybody had a good time and a neat little sum was realized for the church.

Mrs. J. H. Whately is very ill with typhoid fever.

A pie social was held in Svea hall Thursday evening by the Good Templars and an excellent time enjoyed by all present.

The ladies of Grace Methodist church gave a box social in the church Tuesday evening, and a pleasant evening was afforded those in attendance.

A social will be given Wednesday evening at the residence of Mrs. Swanstrom. A good program is being prepared.

C. O. Nelson has returned from a business trip to St. Paul.

Deafness Cannot be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a constitutional remedy. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear, which produces a discharge and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Only one coupon and 25 cents secures the "Book of the Builders" treatise. Five cents extra if sent by mail.

IN THE SOCIAL WORLD

Summer Picnics and Entertainments for Visitors Are Being Planned Now by All Society People.

Surprise Party Given Paul Phillips by a Number of the Young People Last Evening.

Duluth Young Man to Marry a Minneapolis Girl Next Month - Miss Miller's Matinee Box Party.

Society is at present finding its principal diversion in planning summer picnics and other pleasures. This will undoubtedly be an active season socially. A great many people will visit here coming via the lakes and there will be no end of entertainment provided for them. Duluth people stay at home in summer instead of seeking the resorts as do those who are so unfortunate as to live in cities where the mercury floats gently upward toward the boiling point.

June, the month of weddings, is near at hand. A few marriages are known to be coming off then but the list will be smaller than usual.

Gray-Colborn Wedding.
On Wednesday evening, June 6, William T. Colborn, of Duluth, and Miss Josephine Mary Gray, daughter of Mr. and Mrs. Charles W. Gray, of Minneapolis, will be married at Andrew Presbyterian church in Minneapolis. W. A. Reeves will be Mr. Colborn's best man and among the ushers will be G. H. McCarthy, of Duluth, and F. E. Spring, of Superior. After the wedding Mr. and Mrs. Colborn will leave for Chicago and Buffalo and will come to Duluth via the lakes, arriving here about June 20.

Matinee Box Party.
Last Saturday Miss March Miller gave a matinee box party at the Lyceum for a number of her lady friends. Afterward they were entertained at Miss Miller's home. Those in the party were: Mrs. A. L. Thurman, Mrs. M. J. Forbes, Mrs. F. Huntress, Misses Bailey, Markell, Collins, Gertrude Markell, McNair of Minneapolis, Upham and Sloane.

Final Meeting of the Season.
The Central Clink club held its last meeting for the season last Wednesday evening with Mr. and Mrs. J. A. Waterman, Mrs. Stone and J. C. Mashlin won the prizes. Mrs. Stone and J. E. Cooley took prizes for the highest average during the entire season, while Mrs. Long and B. F. Hough had the lowest average. The club has had a thoroughly enjoyable time since its inauguration last fall and the members hope this is but the first of many successful seasons.

The Chautauqua Circle.
The Chautauqua circle will meet on Tuesday evening and the following program will be followed in the evening's work.
Roll call - Respond alphabetically with name of some work given above.
Lecture - "The Future of Education."
Lecture - "The Future of Education."
Lecture - "The Future of Education."
Lecture - "The Future of Education."
Lecture - "The Future of Education."

Morris-Wadhams Marriage.
Samuel F. Wadhams and Miss Mary Morris, daughter of Mrs. Mary Morris of St. Paul, were married by Rev. A. W. Ryan, D.D., at the residence of the bride's sister, Mrs. David H. Day, 419 First avenue west, on May 15. The wedding was a very quiet one, there being present Mrs. Morris and sons, Mr. Weider, of St. Paul, the bride's uncle, Dr. and Mrs. David H. Day, Mrs. E. T. Wadhams, Miss Stella C. Wadhams and Ralph H. Wadhams, of Wilkesbarre, Pa., the mother, sister and brother of the groom, Mr. and Mrs. Wadhams left on the Eastern Minnesota. Upon their return next week they will be at the Spalding temporarily. No cards were issued.

Will Sing a Spinning Song.
At the People's concert at the Bethel next Friday evening by the pupils of Gerard Topping one of the features will be the singing by the Abolition quartet of a spinning song written especially for them by Professor Topping. The words are by Edward Fuller. The Duluth Philharmonic club will contribute several selections.

Young Peoples' Surprise Party.
A surprise party was given last evening to Paul Phillips by a number of his friends at his home in Piedmont Terrace. The young people danced and made merry as only young people know how to. The following were present: Misses Jennie Magriffin, Belle Simons, Bernice Crowley, Fannie Edwards, Flossie Biley, Clara Bull, Virgie LaVaque.

The New Way Of Cleaning Carpets

Is to let some one else do the cleaning. Experience has shown it to be the best way. The question is to whom shall I entrust my...

My Carpets and Rugs?

Some over zealous cleaners sacrifice the goods for the sake of the dirt. We don't make your carpets any worse than they were. We try to make them better. Scientific processes, improved machinery, skilled workmen and our own responsibility are back of every order we accept.

DULUTH CARPET CLEANING WORKS,
F. S. KELLY, Proprietor.
710-712 West Superior Street.
Send your orders by Telephone, 556, or Postal Card and we will call for and return Carpets promptly.

Mabel White, Lillian Ingalls, Louise Rain, Ella Jones, Julia Chapin and Tetsy Hirsch and Messrs. Thompson, Leach, Eaton, Grogg, McCormick, Walter Watrous, Costello, C. McCormick, Jacobi, McLennan, Stocking and Cash.

Social Mention.
Mr. and Mrs. J. F. Segoy will occupy the residence of Mr. and Mrs. R. A. Costello at 1002 East Second street.

On Thursday evening the ladies of the Frothingood of Railway Trainmen will give a ball at Svea hall in the West End. A stage party will be given at the Catholic club rooms on Tuesday evening.

A dance was given at the Windsor hotel on Wednesday evening, about fifty couples attending.

On Wednesday evening a farewell party was given for Mr. and Mrs. H. Anderson and Miss Annie Clarkson at the home of Mr. and Mrs. Benjamin Wood, 1127 West Second street. They left on Wednesday for Scotland and England, their home.

Rev. James McGrick was guest of honor at a dinner given on Sunday last at the home of M. S. Barrows.

The Ladies' Relief society met with Mrs. A. M. Miller at 417 West Second street on Monday last.

On Monday, May 28, Miss Agnes Clark, daughter of Mr. and Mrs. Simon Clark, and Martin Huff will be married at the home of the bride. The wedding will be an informal affair, only the intimate friends of the contracting parties to be present. The young people will be at once leave for an extended trip to Eastern points.

T. F. Ingham will entertain about thirty of his friends at his home on Superior street this evening.

Dr. and Mrs. Woodbury entertained Mr. and Mrs. Edgar Markell and Mr. and Mrs. A. L. Thurman at dinner Wednesday evening.

Miss Flora Loud entertained the bridesmaids and ushers for the Cushman wedding at her home last evening.

Finnic suppers are quite the thing now and have been introduced in Duluth. Miss Colling gave one on Thursday evening for Miss McNair, of Minneapolis, who is her guest, and the young people had a merry time.

The engagement of John J. Haley and Miss Treslie O'Donnell is announced. The wedding takes place in June at the proctorial.

Miss McDonald entertained a number of young people at the Midland on Wednesday evening in honor of Miss May Costello, who is to remove to Red Wing.

Personal Mention.
Mr. and Mrs. H. C. Kendall have returned from their wedding trip, most of which was spent at Monticello, Ind., the home of Mr. Kendall's parents.

Mrs. A. C. Weiss left Monday for a visit with friends and relatives in Southern Illinois.

Mr. and Mrs. D. M. Pahlbin have returned from their wedding trip.

Mr. and Mrs. T. W. Hugo returned on Monday from St. Paul where they visited for a week.

Mr. and Mrs. W. R. Lowe, of Wheeling, W. Va., were in the city this week. Miss Fannie Barber left on Thursday for Springfield, Ohio, for a visit.

Mrs. L. B. Minster has returned from Chicago.

Dr. and Mrs. James McAulliffe have returned from their wedding trip through California and the West.

Mr. and Mrs. A. L. Thurman and family leave tomorrow for Red Wing, where they will remain through the summer.

Mrs. S. C. McCormick left yesterday for a few weeks' visit with friends in St. Paul and Minneapolis.

Mr. and Mrs. George L. Colborn, of St. Paul, were in the city this week.

Mr. and Mrs. J. H. Mead and Miss May Bartleson, of Minneapolis, were in the city on Wednesday.

Mrs. C. E. Van Dergen has joined her brother, A. W. Hartman, in Boston.

James McElver and Mrs. Brisbane have gone to White Bear lake.

Mrs. R. E. Denfeld has come to Boston, Mass., with one of her children who is ill. They will be away for some months.

Mrs. L. J. Taussig and son have gone to Detroit, Mich., for a month's visit.

Mr. and Mrs. H. H. Browning and Miss Browning, of Chicago, have been in the city this week.

C. S. Davis has gone East for a visit of six weeks.

Mrs. J. H. Campbell has returned from Hastings.

Mr. and Mrs. Elias Dew, of Newark, Ohio, and A. W. Brown, of Baltimore, were in the city this week the guests of Mrs. Floy B. Brall.

Mrs. A. N. Parsons is at Chariton, Iowa, and will remain for some time.

Mrs. Joseph Laux has gone to Jamestown, N. D., for a visit.

Rev. F. C. Southworth left on Monday for Chicago, where he will remain several weeks.

The pastor of the Swedish church of West Duluth came up yesterday afternoon and preached at the Baptist hall last night. He was entertained by Mr. and Mrs. Peterson.

Charles Jaekel is on a trip through Wisconsin.

Mrs. Wilson and Mary are making a visit in Duluth.

Mozart's "Twelfth Mass" will be sung by the proctorial choir tomorrow morning. The following being the program:
"Kyrie".....Choir.....Mozart
"Gloria".....Choir.....Mozart

Part XII of Stage Celebrities
Ready today, is the best one of the series and contains portraits of Nellie Melba, Clara Louise Kellogg, Emma Thursby, Emma Nevada, Minnie Hauk and twelve other great singers.

There is to be a strawberry festival at the First Baptist church Wednesday evening, May 23. The ladies in charge are particularly anxious to make it a success. Please come and bring your friends with you.

If you are not satisfied with your laundry telephone 447 and have Lutes' laundry call.

WHEN ALL ELSE FAILED.

Paine's Celery Compound Made Mrs. Leighton and Her Sister Well Again.

"O, I'm only a little nervous. I didn't use to be. 'What can I do to overcome it?' Just what a woman means by a little nervous she can't exactly say. She tells you she is restless; that she can no longer see or read; conversation no longer interests, or it even troubles her; noises startle her, and she cries for no cause.

Such are the first small beginnings of nervous weakness. The world is full of loving, patient wives and mothers who have been called upon to suffer intense emotional strain; have undertaken to nurse those dear to them through protracted illness, or have worked beyond their physical powers.

During the many years of hard and wonderful work, Professor Edward E. Kellogg, D.M.S., great practical physician and distinguished discoverer of the century, Paine's Celery Compound, Professor Phelps became convinced that the trouble in all these cases of weakness lay in a disturbance of nutrition.

FOUND SIXTY FEET OF ORE.
Proof That the Canton and Roucheau Deposits Connect.
Cole & McDonald yesterday finished up the drill hole on the line between the Roucheau and Canton properties, says the Mesaba Range. They cut sixty feet of ore under 121 feet of surface. While this does not absolutely prove that the Canton and Roucheau deposits connect clear through, it almost as good as settles it in order to test the matter a hole was drilled to a depth of two months still further, a new hole was started this morning on the Canton property. The last hole put down shows that the deposit of the Roucheau property is 160 feet long, making it one of the largest bodies of ore on the range.

High School Notes.
School Year is Drawing to a Close - Olympic Society Nominations.
"How the days fly by," is the cry of most of the busy ones at that hive of industry, the high school. Only four more weeks of recreation work before the final examinations, and then a vacation for ten weeks.

THE PASTOR.
Short Sketch of Dr. Clelland's Career in the Pulpit.
Rev. T. H. Clelland, D.D., the newly called pastor of the First Presbyterian church, has been long known in the West as a leader in mission work, and he will undoubtedly prove a valuable addition to the Presbyterian church which has been without a regular pastor for some time.

The cure lies in purer, richer blood and better fed nervous tissues. Paine's celery compound stirs the excretive organs, the liver and kidneys, to stronger action; the blood grows at once purer and redder and more capable of carrying nutrition and oxygen to every nerve and muscular fiber of the body.

These are the difficulties that Paine's celery compound corrects. It builds up the whole body, blood, nerves, and tissues in a way that nothing else has ever equalled. People get well who thoughtfully and thoroughly try it. For rheumatism it is the one true specific, and superintendent of the state duty school at Ames, Ia. He has been doing several years and is well known throughout that state. His wife, writing to Wells, Richardson & Co., who now prepare Paine's celery compound, says:
"Last May I had rheumatism so severely that I could only get around by the aid of crutches. Nothing that I used did me any good, and I despaired of regaining my health. A friend recommended Paine's celery compound, and I used it regularly for two months. As a result I was able to visit the Wells, Richardson & Co. office, and I departed with my health. A friend recommended Paine's celery compound, and I used it regularly for two months. As a result I was able to visit the Wells, Richardson & Co. office, and I departed with my health. A friend recommended Paine's celery compound, and I used it regularly for two months. As a result I was able to visit the Wells, Richardson & Co. office, and I departed with my health."

JURY CONVICTED HIM

Peter Hooper Tried This Morning for Unlawful Assembly at Striking During the Recent Strike.

Warm Time Between the Attorneys Yesterday Afternoon But All Was Peaceful This Morning.

Dental Intimidating Any of the Carpenters at the Oliver Mine—Jury Found Him Guilty.

Peter Hooper was placed on trial yesterday afternoon before Judge Winje on the charge of unlawful assembly. The defendant is one of the late Virginia strikers and this suit seems to be the extreme to which the late excitement has developed down.

The prosecution was conducted by County Attorney Tear while C. T. Crandall appeared for the defense. Yesterday afternoon a pretty hot time was experienced in which Crandall participated on one side with Tear and Deputy Sheriff Klippen on the other. Much sarcasm, harsh language, bluffing and bullying compelled Judge Winje to call a recess. All superfluous steam was then let off and the trial proceeded smoothly thereafter.

Sheriff Sharvy was the first witness. He testified that Hooper was one of the leaders at the Franklin and Oliver mine troubles and that he was rather free with his remarks when the militia appeared. Deputy Sheriff Klippen's testimony in the same line, and the nature and style of it was what started Mr. Crandall and caused the tilt between him and the prosecution.

Deputy Sheriff Bates and Joseph Brink went into the witness stand, after which Mr. Crandall moved for a dismissal of the case, which the judge refused. An adjournment was then taken until 10 o'clock this morning.

When the case was called this morning, after a few preliminaries, in which Mr. Crandall criticized the blind manner in which he considered the complaint was drawn, Hooper was placed on the witness stand. He told his story of the strike and how he had been appointed a member of a conference committee, but he strenuously denied that he did anything to intimidate the carpenters at the Franklin mine and that he led no mob of strikers to the Oliver mine. He claimed that he was sick a part of the time and that he acted all the way through in an orderly and lawful manner.

The witness spoke very broken English, and the rapid, voluminous nature of his testimony, together with the other and all others in understanding his words. Mr. Tear went through the form of a cross-examination and drew on his supply of questions. He was wholly lost on Hooper and his story was unshaken.

The attorneys argued the case and it was given to the jury after a charge from Judge Winje that occupied about ten minutes. The jury retired at 11:40 o'clock.

After being out two hours a verdict of guilty was returned. Sentence will be paid on Monday morning at 10 o'clock. The case may be appealed.

THE VERDICT STANDS.

Motion for a New Trial for Marco Malakovich Denied.

Yesterday Judge Moer filed an order denying a motion for a new trial for Marco Malakovich, the Tower murderer. The motion was made on the ground of misconduct of the jury and errors in the court's charge to the jury. In his memorandum Judge Moer says that the temporary separation of the jury upon which the charge of misconduct was based was no prejudicial to the case, affidavits to that effect having been presented by the court.

As to the point of errors in the court's charge he says that while the charge may have been erroneous to a certain extent it was not prejudicial, and he will therefore grant a new trial. Malakovich will be sentenced Monday, when the April term will be adjourned. An appeal will undergo review.

There were twenty-three cases on the special term calendar this morning, and all three courts were in session.

The time allowed for the Missouri, Kansas and Texas Trust company to file a stipulation for a new trial in their case against Neil McLachlan et al. having expired, the case was stricken from the calendar on McLachlan's motion.

The matter of Ludwig Kahn's assignment, the case of the Village of West Duluth against G. D. Donald, and the case of Harriet Wilkins against J. H. Brigham were stricken from the calendar.

The personal injury case of W. N. Edmondson against Uppel & Sons and the city case before Judge Engson on the issues of law, and the case was still at the bar at the noon adjournment. Ellsworth Benham appeared for the city, and argued that the city was not to blame for the accident on which the suit is based. In every case of the kind decided, he said, it has been shown that there was a defect in the thoroughfare. Nothing of the kind has been shown here, and the ones to blame are the firm which broke the law by leaving the offending boxes on the street, and the police who should have had them removed. The city cannot be held for the latter, because the police are state officers.

A motion for judgment by both parties was submitted in the case of Isabella Carlson against J. R. Carey et al. Judgment was ordered for the plaintiff in the case of Mary Musolf against John Musolf et al. A motion for a new trial was denied in the case of G. D. Selden against B. B. Richards et al.

The assignee's report of sale was confirmed in the matter of the assignment of Iver Wisted. An order adjudging disputed lands to belong to the plaintiff was made in the case of Mary Schult against Ida M. Stewart.

In the matter of the assignment of C. P. Oswald, an order to sell the stock in gross was made. The case of P. O. Holland against C. A. Peterson was heard and submitted.

Pavilion concert Sunday afternoon.

A SONG OF HER LOVE.

O hills, in glory lean
And bathe your brows in light.
O velvet valleys, soft between,
Dress you gently to the night.
For she hath said, "I love," and she
Hath given all that love to me!

O birds, with thrilling throats,
Greet your mate above
O rivers, where the splendor floats,
Flow singing to the sea.
For she hath said, "I love," and she
Hath made that love a crown for me!

O woods, grow green to greet
The joy that comes apace;
Your roses for her footsteps sweet,
Your sunlight for her face.
For she hath said, "I love," and she
Hath made that love a heaven for me!

—Frank L. Stanton in Atlanta Constitution.

The Flying Mountain.

The Flying mountain, otherwise the Mountain For Sledges, is located in the celebrated gardens belonging to the palace of Peterhof, about 20 miles from St. Petersburg. It stands in the middle of an oblong area, inclosed by an open colonnade with a flat roof, which is raised for the convenience of holding spectators.

The circumference of this colonnade is at least half a mile. In the middle of the area stands the Flying mountain, stretching nearly from one end to the other. It is a wooden building, supported upon pillars, representing an uneven surface of ground or a mountain, composed of three principal ascents, gradually diminishing in height, with intermediate spaces to two recent valleys. From top to bottom is a floored way, in which three parallel grooves are formed. It is thus used: A small carriage, containing one person, being placed in the center groove upon the highest point, goes with great rapidity down one hill. The velocity which it acquires in its descent carries it up a second, and it continues to move in a similar manner until it arrives at the bottom of the area, when it rolls for a considerable distance upon the level surface and stops before it attains the boundary.

It is then placed in one of the side grooves and drawn up by means of a cord fixed to a windlass. To a person unacquainted with the mechanism this performance would appear dangerous, but as the groove always keeps the carriage in its right direction there is not the least danger of being overturned. At the top of the mountain is a handsome apartment for the accommodation of the court and principal nobility. There is also room for thousands of spectators within the colonnade and upon its roof. Near the Flying mountain is a spacious amphitheater for tournaments.—Brooklyn Eagle.

A Unique Experience.

The Philadelphia Record tells the following interesting story:
This veteran but still charming actress, Mrs. John Drew, recently had an experience that was as unique as it was pleasant. She was playing in a southern town and accepted an invitation to attend a reception. Her hostess arranged to have her kept the engagement, "because an old gentleman is to be there who was present at your first performance on any stage and whom you is distinctly, though he was only 3 years old at the time." She refused to tell his name, and Mrs. Drew says she thought of nothing else for three days, even dreaming of the old gentleman. Finally the day came, and at the door of the house Mrs. Drew encountered her old friend, Joseph Jefferson, who said to her: "Just fancy, I am to meet an old lady here today who saw me act the first time I ever appeared on the stage. I'm quite excited over it. When they got inside, the hostess confessed that she had tried her little ruse in order to get both the artists to attend, and Jefferson admitted that Mrs. Drew had attended his first appearance on any stage."

We Beat Them All.

CARDINE

(HAMMOND)

The Extract of the Heart of the Ox

Prepared according to the formula of

Dr. Wm. A. Hammond.

In his laboratory at

WASHINGTON, D. C.

In the case of a prominent physician of Indiana, the heart beat was feeble and irregular, and there was a constant vertigo while walking, or even while in standing position. In this case the relief was equally prompt. He remained under my care only three days, being "summoned home" by telegram, and his health "improved" after making arrangements to present a "sufficiency of Cardine for home use, and I advised him to continue it for at least a month."

"He arrived home before the Cardine reached him, and found to the great relief of his doctor, "scratched" for it to be sent to him as soon as possible. He informed me that the effect upon him was so decided that, whereas formerly he "was loath to walk even a few steps for fear of being overpowered by dizziness, a single injection enabled him to walk as much as he pleased for four or five hours afterwards."

Dose Five Drops. Price (2 drachms), \$2.50.

Where local druggists are not supplied with the Hammond Animal Extract they will be mailed, together with all existing literature on the subject, on receipt of price by
THE COLUMBIA CHEMICAL CO.,
WASHINGTON, D. C.
S. F. EYOCE, AGENT FOR DULUTH.

Pavilion concert Sunday afternoon.

THE EVIL SPIRIT OF THE PLAINS.

Dr. Carver Challenges All the Crack Shots of the World.

Dr. W. Frank Carver, "the evil spirit of the plains," who has been emulating the example of Erer Rabbit for some time past, recently issued a challenge to all the crack shots of the world singly and collectively. He not only believes that he can outshoot any man on this mainland sphere, but that he can outshoot any team of men.

He says, "I will shoot Messrs. Fulford, Brewer, Elliott, Thompson and Budd all in one bunch, myself against the five, for \$2,500 a side, they to shoot at 100 pigeons each, and I 50—namely, 100 birds with each man alternately, making in all 500 birds a side, the match to be shot under Hurlingham rules, 30 yards rise." Whether Carver is a better marksman than a "F" I don't know, but Brewer with the shotgun has not been demonstrated, but he probably has few peers as a wing shot with the rifle. In 1878 Carver, using a rifle, broke 5,000 glass balls out of 6,222. In 1888 he hit 60,000 out of 60,070 wooden balls shot at in less than six days. His right arm became so inflamed and numb the last two days of the shoot that physicians warned him that he would lose his arm if he continued shooting. With rare pluck and endurance, however, the ex-California dentist finished the great shoot and won a substantial victory. The following year this record was broken by E. Bartlett, who broke 64,017 balls in six days. One of Carver's remarkable feats consists in breaking six glass balls thrown into the air simultaneously before they reach the ground.

E. D. Fulford has a \$100 forfeit and accepts Dr. W. F. Carver's challenge to shoot a match at 100 live pigeons per day, Hurlingham rules, weight of gun not to exceed eight pounds, 30 yards rise, for \$500 a side, the match to take place within 3 months from April 28, the date of Carver's challenge.

The Paris papers refer to Ives as the "world's billiard champion, as he is known by his transatlantic friends."

First Baseman Goetzke of the University of Pennsylvania will represent the Philadelphia League team June 4.

Peter Jackson, the pugilist, has found a long lost brother in Boston in the person of James Jackson.

It is said that there are only 248,221,840 different combinations that may be played in dominoes.

Prominent American yachtsmen, including A. Carey Smith, favor cash prizes for yachting contests in place of cups and trophies. Nearly all the prominent races in France and England are sailed for substantial monetary considerations.

Pigeon shooting is an expensive sport. In a 100 pigeon match a contestant's bird cost him \$5, and besides this cost the sportsman must pay for his cartridges, fee the men who manipulate the traps and provide himself with refreshments.

Wellesley girls are very fond of rowing. There are five rival crews at the college this year. A Harvard student has been engaged as coach by one of the fair crews.

Wheeling is growing rapidly in popularity. Over 40 authorized race meets will be held in the United States May 30.

Swift Walker Samuel Liebhoght.

The Hebrew does not ordinarily go in for athletics, but Samuel Liebhoght of the Pastime Athletic club of New York is a notable exception to this rule. Liebhoght has not only gone in for athletics, but he has gone in and made a name for himself. His specialty is walking, in which he won his first contest of non-strike at the national games of the A. A. U. and won the three mile championship of America.

Samuel Liebhoght's title to the championship in the three mile event, defeating Lloyd Collins of the New York Athletic club and others, and was second to Thomas Shearman of the New York Athletic club in the one mile event. Shearman and Liebhoght are bitter rivals and have met in several punishing one-mile races. Shearman has the best of it thus far in the number of victories, but at the last meeting of the shearman in October, 1893, Liebhoght defeated Shearman by eight inches in the remarkably fast time of 6 minutes 37.5 seconds. Liebhoght was born in New York about 25 years ago and is a dry goods clerk.

The Lassalle-Schutz Squabble.

Immediately on reaching Paris Jean Lassalle, the opera singer, challenged Willie Schutz, the husband of the De Kestres' sister. Schutz, according to Lassalle, at first accepted the challenge, but Schutz said he could not fight, as he was able to find but one second. Lassalle says that Schutz, while in Chicago, libeled him and got up those false reports about Messrs. Calve, Melba and Emma, and he declares that since Schutz will not fight he will sue him for libel in the French courts.

An Incongruous Bill.

Ibsen's "Ghosts" and Branin Thomas' "Charley's Aunt" are presented in one bill in the town of Skien, the birthplace of Ibsen. Thus "the horrors of inherited disease," says The Pall Mall Gazette, "are pleasantly relieved by the antics of the undergraduate. At last Ibsen has been thought worthy to be set aside by the side with Mr. Branin Thomas and the reproach of infamy is wiped away forever."

Weakness, Nervousness, Debility, and other ailments, the result of excessive or early errors or later excesses, the result of overwork, etc. Full strength, however, is restored by the use of our every organ and portion of the body. Immediate relief and permanent cure. Full explanation and proofs mailed (sealed) free.

A Ripe Opportunity
Be your own enemy, but do not be the enemy of your wife and children. They want a copy of the "Book of the Builders," whether you do or not.
"C'est le premier pas qui count." If you would only take the trouble to see a single Section or Part of this great work you would be an enthusiastic subscriber from that moment. Unfortunately, we cannot show it in the columns of this paper. Its value can only be suggested by words. And no type can portray the matchless artistic beauty which glows from its every page. Language shapes itself readily with such a subject. Words come quickly. Yet no adjectives can begin to do justice to the subject. It almost needs the coining of a new set of adjectives, exactly as the glorious World's Fair itself defied description.

But the price should decide it instantly. The whole force of the argument comes to you when you think of the paltry pittance of One Cent (and a fraction) per day as the total cost to readers of this paper.

It is the great opportunity of your lifetime.

UNPRECEDENTED BARGAINS

IN Crockery, China, Glassware, Silverware, Bric-a-Brac, Etc.

At Our New Store.

Our purchase from the Duluth Crockery Company, Fifth avenue, consists of their entire **WHOLESALE STOCK** of more than **\$60,000.00** worth of Choice New Goods, which cost us about **60 CENTS ON THE DOLLAR.** One-half of this stock must be sold before **August 1st**, at some price, to make room for our **NEW IMPORTATIONS** to arrive at that time, so instead of putting more men on the road to sell these goods to the dealers, we have decided to give our friends at home anything in our store at the regular **WHOLESALE PRICE, FOR CASH ONLY.** So remember, if you are worth a million and ask credit, you will pay retail price. Post yourselves on the price of any article you want to buy beforehand, thoroughly, and you will the better appreciate what we can save you. The saying that a "new broom sweeps clean" is applicable in our case, but you will never return to the old one if you once try ours. We are too busy getting settled to confuse you with a lot of catch prices, but will gladly quote them to you if you will only favor us with a visit any time after

10 O'clock a.m. on Tuesday Next,

At which time our doors will be thrown open for business. Anything you may purchase from us that is not exactly as represented, you will either have your money refunded or the goods exchanged. One word before closing, **IF YOU INTEND TO BUY A REFRIGERATOR** do not do so before examining our line of the oldest and most noted manufacturer in this country, John C. Jewett & Co., of Buffalo. We are their exclusive wholesale and retail agents for the Head of the Lakes.

F. A. PARKER & CO.,

28 West Superior Street.

Successors to **DULUTH CROCKERY COMPANY.**

 John Wilson will speak at the Bethel tonight.
 John Wilson will be the speaker at the Young Men's Christian association tomorrow afternoon at 4 o'clock.
 Bishop McGorick will preach at the cathedral at 10:30 tomorrow morning.

KILLED AT WOODLAND
 A Woodchopper Known Only as "Matt" Accidentally Shot in the Stomach This Morning.
 He Was Pulling the Gun Toward Him When the Trigger Caught and It Discharged.
 Even His Former Employes Do Not Know His Real Name—Body Is at the Morgue.
 About the middle of this forenoon a report reached police headquarters that a man had either been killed or committed suicide at Woodland.
 With Coroner Ecklund, Chief Armstrong at once repaired to the end of the street railway track at Woodland, where he found that a wood chopper known as "Matt" was accidentally shot at 9:30 this morning.
 Andrew Brozinsky, a Pole who lives at Kenwood Park, told the following story of the accident: "Matt has been living in a shanty this winter on land belonging to Haug brothers, about a mile from Kenwood Park. Last night I told him I wanted a few boards, but that I was too short of money to buy them. He said that he knew where there was a deserted shanty in the woods where I could get some boards for nothing. This morning I hitched up my team and we started. When we got to the top of the hill at the end of the car line the road turned out to be so bad that I would go no farther, so started to turn around to go back. Matt's double barreled shot gun was in the end of the wagon and was jutting out. He reached for it, caught it by the end of the barrel and pulled it towards him. The next thing I knew there was a loud report and Matt fell over shot in the side.
 Mrs. Gueve Sanford, who lives near that spot heard the report of the gun and looking out saw Brozinsky holding his horse. His companion had disappeared. Two or three men hastened up and the wounded man was taken out. He had a terrible hole directly over the center of his liver. The wound bled profusely and the injured man lived only four minutes.
 On the person of the deceased were found receipts and a snuff box bearing the name of "G. O. Tappen." The director shows that a man by that name has moved to Fargo.
 Chief Armstrong called upon Mr. Haug. He stated that the man has worked for him chopping but not lately. He has allowed the disease to reside on that land in a shanty. He has known him only by the name of Matt and thinks he was a German. Chief Armstrong cannot reconcile the fact of the name on the box and documents and the name "Matt." Officer Otto Zeigler thought

that he could find the real name of the deceased.
 Coroner Ecklund viewed the remains and ordered that they be removed to Durkan's morgue.
 Later—it was ascertained this afternoon that the man's name is Matthew Matthews. Nothing is known of his people. He was about 30 years of age.
THE POLICE COURT.
 Usual Quota of Drunks Today—Lucien Labbe Charged With Assault.
 In police court this morning John Teigh was sent up ten days for drunkenness, as also was James Ryan. George Le Bare and Andrew Anderson, charged with similar offenses, received suspended sentences. John Aspund and William McCarthy pleaded not guilty to charges of vagrancy. Victor Isaacson pleaded not guilty to the charge of resisting Officer Miller. His trial was set for May 23, and in default of \$20 bail the defendant was committed.
 Lucien Labbe was in the toils as the natural result of a charge of assault in the third degree, preferred by George Michaud, who alleges that Lucien smote him in the face with his fist.
 Fritz Uden paid \$5 for the fine he had in throwing a stone at H. R. Tinkham's young son.

ARE STILL APART.
 Vesselmen and Shippers Are Still Differing Over Rates.
 The charters which might have been made yesterday failed to materialize on account of a difference between vesselmen and shippers. The latter offer 2 1/2 cents for wheat to Buffalo, while the owners refuse to take it at less than 2 3/4 cents. They say that there is no object in taking cargoes of wheat at 2 1/2 while they can get 30 cents for ore. They have to take ore shorter distances than wheat, resists. Keystone, lost a large raft, which is more valuable consideration than time these days. But little grain will be moved while the present condition prevails. The Northern Queen took 40,000 bushels of corn yesterday at 2 cents.
 All of Inman's tugs that are in commission and several other tugs are out today gathering up logs from the lake shores. There is probably 5,000,000 feet of timber between Cranberry river and the entry at Duluth, which went astray during the gale. Two millions belong to the Cranberry Lumber company, while about 1,500,000 were lost from Anson river, which belonged to a combination of different owners. The Asbland tug, Keystone, lost a large raft, which is more valuable consideration than time these days. But little grain will be moved while the present condition prevails. The Northern Queen took 40,000 bushels of corn yesterday at 2 cents.
 The City of Traverse will leave tonight for Chicago with 350,000 feet of lumber and lath from Mitchell & McClure's and Merrill & King's docks.
 The Canadian steamer Arabian, of Hamilton, arrives this morning with 1,500 boxes of lemons consigned to H. B. Stanley & Co.
 The Aztec and Zapotec are in the former with 935 tons and the latter with 1,331 tons of limestone from Marine City for Cutler & Gilbert.
 Clearances today are the J. V. Moran, 30,000 bushels of wheat and 27,500 barrels of flour for Buffalo and 2,000 barrels of flour for Cleveland; Barge 104, 2,700 tons of ore for Buffalo; Idaho, 3,200 barrels of flour for Buffalo and 750 barrels for Cleveland.
 Attention is called to the advertisement in another column of the steamer North West, which begins her season here by leaving June 8. Weekly trips will be made all summer, leaving here each Friday.
The Sault Passages.

PERSONAL.
 John R. McGiffert has returned from New York.
 Mrs. L. E. Brewster, of Denver, Col., was at the Spalding last evening.
 J. M. Paine, of Carlton, was in the city last evening.
 Mrs. H. R. Ensign, of Minneapolis, arrived in the city last evening.
 John Grant, of Faribault, is in the city today.
 D. M. Gunn came down from Grand Rapids today.
 A. Hirsch returned today from New Richmond, Wis.
 Gen. A. F. Pray, of Minneapolis, arrived in the city today to inspect militia companies.
 I. Bearing, of Saginaw, is in the city.
 Mason W. Burt, of Ironwood, Mich., is at the Spalding.
 This morning Fred Lewis said that he had received word that his father, Mayor Lewis, would arrive home from his Eastern trip this afternoon.
 Mrs. D. J. Sinclair and son have returned from Pass Christian, Miss., where they have been spending the winter.
 J. H. Chandler returned to Chicago this afternoon.
 John Bonfield, of Oshkosh, Wis., manager of the Grand Union Tea company, is in the city.

THE ENGINEERS.
 Five Hundred of Them Expected From St. Paul Tomorrow.
 Telegrams received today from St. Paul say that fully 500 engineers with their ladies will arrive tomorrow morning from St. Paul. At 7 o'clock they will have breakfast. At 10 o'clock they will leave for a steamboat ride on the lake. The steamer R. G. Stewart will be used and lunch will be served on board. The barge works will be visited and the Christopher Columbus inspected. The boat will return about 1:30 o'clock and land at Fifth avenue west.
 At 2 o'clock the trip up the incline will be made. The freedom of the street car lines and Pavilion has been given the visitors. The City band will render a fine program. Dinner is set for 5 o'clock at the hotels and the evening will be spent as the visitors may wish.
A Child Drowned.
 Stanza, the 3-year-old daughter of William Krissach of 1015 Rice avenue was found in the bay last evening near the house. She had been playing near the water all day and in the evening went in the house to get her supper. After that she went out again and was not seen afterward until found.
Democrats Like Republicans
 Have their laundry work done at the Troy as it satisfies all.

Will Present It Tonight.
 The petition for a school on Duluth Heights will be presented to the school board this evening. The Duluth Heights people threaten to vote against the issue of bonds unless some assurance is given that they will have a building.
You Get Your Money's Worth.
 Duluth Heights is growing this year as rapidly as ever. If you don't believe it, take the car out. It only costs a nickel and there is more than a dollar's worth to be seen.

AS SEEN IN THE EAST

F. B. Spellman Makes Some Comments on People and Things He Saw on His Recent Trip.

Contractor Ryan Tells Him He Lost Three Million Dollars by Not Investing in Duluth.

President Van Horne Has a Plan for the Employment of the Coxeyites in Washington.

"When I left Duluth about a month ago for my visit to New York," said F. B. Spellman to a Herald man, "I took the South Shore to Chicago. There I took the Canadian Pacific to Montreal. From the historic Canadian city I reached the New York state line over the Grand Trunk. The Delaware & Hudson River carried me to Albany, where I boarded the New York Central, and experienced the longest and quickest continuous trip of my life. The distance to New York city, 150 miles, was made in three and a half hours and not a stop was made. The train was also crowded, many people being compelled to stand up. I want to say this for the Canadian Pacific—it has an excellent service and charges only 75 cents for meals. I met Mr. Ogden, comptroller of the line, and he informed me that while they are losing money at that price, they hope that sufficient business will follow to make it pay eventually. One dollar a meal would let the company out without loss.

"In my conversation with Mr. Ogden, I was surprised to learn that nearly all the general officers of the Canadian Pacific are natives of the United States. Not more than a couple of the general officers are Canadians if I am rightly informed.

"I also inquired how a vote of annexation to the United States would stand if taken today. It seems impossible to tell. A numeration of the provinces showed them to be about equally divided on the question. It probably would be about a standoff.

"On the train I also met Mr. Ryan, the contractor who is building the Canadian Soo canal. He told me that he fully expected to let in the water by Aug. 1 of the present year.

"I once lost \$3,000,000 in Duluth," said Mr. Ryan to me, in the course of his conversation.

"How?"

"Why, by not investing when I was there twenty years ago."

"At that time he was building some branch of the Canadian Pacific west of Port Arthur, if I am not mistaken."

"I also heard President Van Horne's idea of a plan for dealing with the Coxeyites. He would put them under the control of United States troops and set them at work improving the sewerage and sanitary condition of Washington, D. C. In that respect the capital city is in an exceedingly bad condition and if Van Horne's scheme were put into effect it would utilize many men.

"I found that the nickel mines at Sudbury were idle. Their value has been overestimated because the cost of operating them is too great to secure profitable returns, unless the condition of trade is most favorable, anyway."

"I stopped a long enough to see the magnetic ore mines at Fort Henry, New York, at the lower end of Lake Champlain. For the first time in the history of their operation, a period of idleness, a quarter of a century, they are idle. It is not even possible to get an offer on the product. These mines have some of the finest magnetic ore in the world, and always before it has been in demand at some price.

"In New York city the depression of the times is being felt. The effect is very noticeable in the falling off of rents. I talked with one gentleman who has both store buildings and tenements. He said that his rents had depreciated 20 per cent since hard times set in.

"One day when crossing Brooklyn bridge, I was surprised to meet Dr. Lambert who many will remember as a special agent in the land department under Harrison, and who was stationed here quite awhile. He is connected with some new printing house and I think intends going onto the road for the concern.

"How do you like it here?" I asked him.

"Oh," said he, "I want to get West again, I want to get out into the pine woods."

"While in New York I took in that play which has been attracting much attention and comment, Hauptmann's 'Hannele.'"

"It is more or less sacrilegious and there was considerable talk of suppressing it. A very fine young actress, 15 years of age, was engaged to take the part of Hannele but as a girl must be 16 years old in New York before she is allowed to go on the stage the Gerry society prevented the keeping of that engagement.

"Hannele, so the play goes, is a motherless girl with a drunken father. She attempts suicide but is saved only to go to the poor house. There, while ill, in her delirium, she jumps and grim death himself appear on the stage, and around her. She dies and later on is brought onto the stage in a crystal coffin. The school master, known as the 'Stranger,' is another character and a great many are compelled to draw the inference that this character is meant for Christ. The play is full of horrors and in my opinion is not a success. One lady who went told me that she wanted to leave the house but could not and that she had the nightmare for a week afterwards.

"The greatest theatrical success in New York this season seems to be John Drew in 'The Butterflies.' '1492' and 'Shore Acres,' are the favorites, but the first named is really a fine play, a great success and I believe leads all the rest.

"On my way home on the Pennsylvania Central I met a New Yorker who was on his way to St. Paul. He informed me that he held six or seven mortgages on realty there and that neither the interest has been kept up nor the taxes paid. He was going out to close in the mortgages.

"These St. Paul investments," said he, "bear me 7 per cent. I have some in Du-

Mankato, Minn., April 28th, 1894.

The Bar-Lock Typewriter,
98 East 4th Street,
St. Paul, Minn.

Gentlemen:-

If commendations are in order, permit me to say that, in my opinion, until the great Edison invents a machine by which our thoughts can be conveyed to paper by electricity,- by the mere act of willing and thinking and touching a spring, which he will probably devise,- the Bar-Lock Typewriter is the peer of any machine made. It possesses meritorious devices for operating wholly lacking in any and all other Typewriters.

I could not say this before your machine was placed in our office, but after using and becoming thoroughly acquainted with it, I am free to commend it.

Respectfully yours,
THE MANKATO FREE PRESS,

L. E. Hunt

luth at 3 per cent. Those have been paying right along, without a single default. I wish I could trade my St. Paul interests for interests in Duluth.

"I continued on the Pennsylvania Central to Chicago and came home from there on the Omaha. I want to say this for the Northwestern line—it puts up the best meal for \$1 any road that I have ever traveled over in this country and I have been over a good many of them.

"Coming out over the Pennsylvania Central, I fell in with quite a party of prominent Buckeye and Hoosier politicians. Col. Mead, the son-in-law of ex-Congressman Houck, lives at Dayton, Ohio, and was interested financially in the Dayton Mining company, which once was known in Duluth. He dropped a little cash, he told me. With the party was ex-Congressman Pierce, of Indianapolis, and a Mr. Finch of the same city, who, I believe, is counsel for the New York Life Insurance company. Finch stated that Gresham, in his opinion, will be the next Democratic nominee for president. Col. Mead said that the Republicans in Ohio have come to an understanding. Foraker is to have Bryce's place in the senate, McKinley is to try for the presidential nomination but if the Tom Keel strength keeps the prize out beyond his reach, Uncle John Sherman will retire and McKinley will be given his seat in the American House of Lords."

"Michael Angelos in Puffed Sleeves. The palaces of the Columbian fair were planned by designated artists, without competition, except the architect's building. In this case it was thought expedient to invite a competition from women exclusively, and the result was twelve sets of sketches, evincing a high degree of accomplishment. The successful one was designed solely and without help, and in her own home, by a Boston girl, Miss Sophia G. Hayden. Rosa Bonheur and her sisters have done great work in painting; Harriet Hosmer and others have advanced the art of sculpture; and now architecture is to be invaded by the gentler sex. This single fact about the woman's building has advertised the emancipation of our sisters, and their self-assertion up to or beyond our level, all over the world, and especially in all parts of the Union. It forms one of the charming sections in the new illustrated 'Book of the Builders,' which is the authentic history of the World's Fair, by the men who built it, of which this paper is now issuing a superb popular edition to its patrons and readers, at a very low price. The Columbian fair was the grandest industrial enterprise of all ages, and in this book it has found a worthy and a thrilling record.

"A Rare Opportunity. Back number coupon for the 'Marie Burroughs Stage Celebrities' on page 5. One coupon and ten cents secures any back number from Part I to Part X. Two cents extra if sent by mail.

"The great singers' series (Parts XII, XIII and XIV of 'Stage Celebrities') contains portraits of all the famous artists of opera, oratorio and concert. Ten cents and three coupons for each part.

"Soon your chance to get the beautiful and artistic 'Marie Burroughs Art Portfolio of Stage Celebrities' will be gone. If you do not want the entire series you will certainly, if you are musically inclined, want the three last numbers (Parts XII, XIII and XIV) which constitute in themselves a complete collection of the great singers of the world. Ten cents with three coupons to readers of The Herald.

"Important Change of Time. Commencing Sunday, May 20, the St. Paul & Duluth limited will leave at 1:55 p. m.; arrives 6:45.

"Strawberry festival at Pilgrim Congregational church, Wednesday, May 23. Supper from 6 to 8 o'clock.

"The Herald in Minneapolis. West Hotel Newstand.

TEMPERANCE COLUMN

A Department Under the Direction of Mrs. E. H. Cole of West Duluth for the W. C. T. U.

If Sobriety Is Good for the Home It Is Good for the State and Nation.

Teaching of Scientific Temperance in the Schools Has Been Made Compulsory in New Jersey.

In my early days I recall a Baptist minister who held a retracted meeting in the neighborhood, resulting in a large gathering of souls for Christ's kingdom. From thence as is done by evangelists of the present day, he moved on to another point, and the converts were picked up by the neighboring churches. The next year he came back and declared his intention of stringing his next haul of fish which he did, and for many years a strong church in a light in a territory until then unoccupied.

Is not this the way with too much of our temperance work, we must sometimes do just to keep ourselves in good condition, perhaps as we are induced to take exercise? But this is only permitted in extreme cases, and we usually have a delightful sort of pity for those who have so little heart and energy as to walk or ride out for their health, with no other end in view. The mottoes of our philanthropic and Christian societies point to no such aimless lives. Coxe's army marched on to Washington with just about as much sense as the old cat crossed the road in the jargon we used to repeat in childhood.

We too, as temperance workers, are marching on to Washington. We have not the least hope of ultimate success except through national prohibition. We work for local option if need be and keep the curse from our town as long as possible, though ashamed of our selfishness we strain every nerve for state prohibition, then turn our backs to the center and face the foe in vain, from all sides, and hear the maledictions from our neighbors into whose coats we have driven our nuisance, and all the time bewail our lost vital force. We bewail; yes, we women do worse than that; in heart we rebel, but if we cry for vengeance what good does it do? Our petitions for a change are rolled under the table with much complacency as a sweet morsel is rolled under the tongue, and our arguments are lost in a brain clouded by a substance of which smoke is the exponent.

We know if sobriety is good for our homes it is good for our town, for our county, our state and our nation. We know if smallpox can be kept out by governmental interference that alcoholic beverages can. We have, we can't help it, we must have supreme contempt for a board of health that has power to exclude decayed meats and vegetables and claims to have no power to exclude decayed drinks, and more still for him, who having his one iota of power, neglects or refuses to use it for the protection of those he refuses to give the privilege of protecting themselves. We have all of these feelings because we cannot help it. They were a part of our birthright. God gave us brain, and the good sense that came in it has helped us keep it clear. We know that if the wonderful success that attended Father Matthew's work in Ireland over fifty years ago had been clinched with a prohibitory law, the wonderful work would not have needed to

be done over again now. We know too that if honesty of principle had been used in enforcing the prohibitory law in Iowa, the jails would not have filled up again, nor would the bags of gold have been poured out for free drinks as they were at Des Moines last autumn, and we know too that our twin sisters west of us would not be obliged to keep on the warpath against an enemy more subtle than the wild Indian, but knowing these yet leaves us powerless. E. M.

The words of our Master, "rejoice with them that do rejoice" come to us with force as we look over the work recently reported in New Jersey. In April the governor signed a bill making the teaching of scientific temperance in the schools compulsory and with considerable ceremony Mrs. Hunt had the black patch which has hitherto covered that state removed from her map. Senator Stokes and Assemblyman Dr. Wilbur performed the operation. The senator claimed the scissors as his own, and the doctor the patch, while the governor presented the pen with which the bill was signed to Mrs. Hunt for her national collection. Our world's character building is like all, slow and often against unnecessary opposition.

The Presbyterian Journal says whether women's suffrage is right or wrong they would make short work with the liquor traffic. It then goes on to say that they suffer all the woes without the sensual pleasure of the corrupted taste which is throughout the United States come out as did the Iowa vote ten years ago with its proportionate 30,000 majority. One cannot help concluding thus, after seeing how the managers of the Nebraska campaign managed to so entangle and mystify the question there, that voters could hardly tell which "no" meant license and which "no" meant prohibition. The children of darkness are so much wiser in their generation than the children of light. It will take the same God who made the sound of going in the mulberry trees to confound the enemies in our camp, and yet even we are not permitted to stand yet by any means. It is not all done.

The parlor meeting held by the Onocota W. C. T. U. at the home of Mr. and Mrs. W. S. Vanmeter last Tuesday evening was well attended, despite the disagreeable weather. Extracts were read from Miss Willard's address. Mrs. H. R. Merritt gave a sketch of the life of Jennie Cassady and her work, that of flower missions. Mrs. Cole read a brief paper upon press work. Rev. Mr. Greenshield gave a bright and instructive talk. These, interspersed with vocal and instrumental music, made up the program, after which a short time was spent in a social manner.

Important Change of Time. Commencing Sunday, May 20, the St. Paul & Duluth limited will leave at 1:55 p. m.; arrives 6:45.

Melba, James, the De Reszkes and sixteen other famous opera stars in Part XII. Calv. Arnoldson, Lassalle, Plancon and other great artists in Part XIII. Fatti, Marie Kove, Galassi, Ravelli, etc. in Part XIV. Sixty great artists in the three last numbers of 'The Marie Burroughs Art Portfolio of Stage Celebrities.' Only one coupon and 25 cents secures the last of the series. This is cents a box. Five cents extra if sent by mail.

THE WORLD OF LABOR.

All the Unions in Duluth Exhibiting an Increased Display of Interest in Their Work.

Donald Morrison's Return Is Expected to Be Followed by a Reorganization of the Clerks' Union.

Another Lecture at the Bethel Is Contemplated by the Lecture Committee of the Assembly.

While matters are quiet in the ranks of organized labor just now, all the unions are pulling up their socks, so to speak, and a revival of interest and work need surprise no one.

The union spirit, while quiet all the past winter and spring, has been striking down and taking root. With improvement in labor and summer days organized labor will become more firmly planted at the head of the lakes than ever before.

The recent action of the convention of the Brotherhood of Locomotive Engineers in endorsing the blue label cigars and, by a vote, committing union engineers to the use of union made cigars, has given much satisfaction and no little encouragement to the loyal members of the local Cigar-makers' union.

The lecture committee contemplates another Bethel lecture at as early a date as possible. The particulars are not at hand. The lecture by Dr. J. M. Thoburn was a great treat and encouragement to the Federal Trades assembly and the lecture committee is determined that the good work of good lectures shall go on.

The conference committee contemplates another Bethel lecture at as early a date as possible. The particulars are not at hand. The lecture by Dr. J. M. Thoburn was a great treat and encouragement to the Federal Trades assembly and the lecture committee is determined that the good work of good lectures shall go on.

THE CONFERENCE.

Meeting of Labor Men in Philadelphia a Grand Success.

Unify labor! Solidify the scattered workers! These are the cries which are coming up from the mills, the mines, the factories and the railroads. This is the sentiment which overshadows every other in the local unions, assemblies and lodges of the wage-workers of the country, as it was the concentrated essence of the magnificent conference held in Philadelphia on April 27-28.

It may interest my readers to know the special reasons for this opinion so unanimously concurred in by those who attended the conference, and it is my intention to give them as they appeared to me during the two days and after in the quiet moments I have given to a thoughtful consideration of the subject.

or one organization against those of another. Not only have the leaders become involved in bitter warfare upon each other. The rank and file have in a majority of cases been firmer than their officers in denunciation of rival organizations. The leaders cannot lead where the masses will not follow.

A change has come within a year. The reasons for this change need not be discussed here. It is sufficient to know that they are creditable to the good sense of the men in the labor movement. The great mass which composes the body of organized labor has signified a wish for a new policy, and the leaders, who have long been tired of the internecine strife in which they got the major part of the bruises and few of the rewards, are ready to labor for the inauguration and extension of methods of organization which will secure the solidarity of forces.

The second important feature of the conference was that during two days of earnest and animated discussion not one out of the more than fifty present for a moment lost sight of the object for which they were assembled. Though the debate on questions of method frequently waxed warm, it never once got beyond the influence of the principle at stake, and the spirit of fraternity dwelt with that body of earnest men and brought to faces which for years have worn a look of perplexity a smile of hope and faith.

What was accomplished by the conference besides the welding in sentiment of those who were present? Now want to know what was adopted in the way of platform and programme? While I went to the conference hoping that steps would be taken to at once begin the concentration of the labor movement by a declaration in favor of radical changes in our forms of organization, I admit now without reservation that the course taken was the best one open to us under the circumstances, and that the conference displayed superior wisdom in adopting a declaration in favor of radical changes in our forms of organization.

The work of this conference is intended to prevent forever any possibility of strife and antagonism between trade and labor organizations, for strike and anarchism in labor's ranks are fatal and ruinous to the best interests of working people, and that we dedicate any conflict between any organized workers to the people in strikes, to the best interests of working people, and that we dedicate any conflict between any organized workers to the people in strikes, to the best interests of working people.

The committee on resolutions made the following report, which the conference adopted without a dissenting vote: Whereas, your committee has considered the various propositions offered, and we believe that the fact that this conference has been held is a living evidence that the organized labor movement of the country is a unit in the fundamental truths that underlie the labor problem.

Resolved, That it is the sense of this body that the organizations herein referred to should be held on or before the 21 day of July, 1894, and that in the event the labor convention called for by the general executive board of the Knights of Labor is not held by the foregoing date the chairman of this conference is hereby authorized to issue a call for a conference Sept. 8, 1894.

The reader not familiar with all the facts might see in the first resolution an unrecalled for threat, made for the purpose of compelling the meeting between the officers of the various labor organizations. It was not intended as a threat, but simply a notice to those having the conference ordered by the general assembly of the K. of L. in control that the organized working people of this country would not wait beyond July 2, 1894, for a meeting which was ordered in November, 1893.

Since the adjournment of the Philadelphia conference it has been announced

that the executive board of the Knights of Labor has named June 11 as the day for the meeting ordered by the general assembly. I do not know whether the action of the Philadelphia conference had anything to do with hurrying up the executive board or not, and it doesn't matter one way or the other.

Those who met in Philadelphia were there simply to confer, but not to legislate. They had not the authority to adopt any kind of union programme that would be binding upon the various organizations. Hence the results of the conference are presented to the organizations as recommendations. But the conference was thoroughly representative of the movement, and there can be no doubt concerning the reception which would be given a call issued by it for a regularly constituted congress.

In a speech recently made to a mass meeting of Washington carpenters Congressman John Davis said the battleground of humanity was in the legislative halls and the courts. He advised them to organize into leagues, as did the demagogues of the far south, who in order to protect themselves against the coyotes and panthers, formed a circle, put their heads together on the inside and their heads on the outside.

They Use the Land. In Catalonia, Spain, is a singular custom, whereby a laborer plants upon the property of a real estate owner and becomes entitled to two-thirds or three-fourths of the produce of the vineyard during the life of the vines.

ECONOMY OF HIGH WAGES. Improvement of Machinery Upon the Quality of the Product and the Cost of the Labor. Improved machinery stands to high wages in a twofold relation—it is at once cause and effect.

Resolved, That it is the sense of this body that the organizations herein referred to should be held on or before the 21 day of July, 1894, and that in the event the labor convention called for by the general executive board of the Knights of Labor is not held by the foregoing date the chairman of this conference is hereby authorized to issue a call for a conference Sept. 8, 1894.

He is stronger, more capable, more alert, and consequently the product of his labor is greater, increasing proportionately faster than the rise in wages. They also provoke, and indeed necessitate, a constant growth in the productive power of machinery and give the maximum stimulus to the inventiveness of its makers.

What then is needed in the present and the future? More light and air for production; the abolition of all restraints, protective or otherwise, upon exchange of commodities; the increase of competition everywhere. At the same time no agency should be neglected which will help to increase the laborer's efficiency.

It is an interesting fact that very nearly five times as many immigrants from Italy as from Ireland have come here this year. Even the number of Jewish immigrants has been three times the number of Irish. Both Ireland and Germany have within recent times fallen behind Italy and Russia as replenishers of our population and as powers in the American labor market.

The musical numbers are the most popular of all. Secure it while you may at the office of The Duluth Evening Herald.

A Cent (or so) A Day AND THE GREATEST OF MODERN BOOKS IS YOURS. WE ARE RESPONSIBLE FOR THIS AND IT IS ALL OWING TO OUR ENTERPRISE THAT THIS COSTLY PRODUCTION CAN BE HAD BY YOU. WE REFER TO THE

History of the World's Fair (THE BOOK OF THE BUILDERS) BY THE MEN WHO BUILT IT, D. H. BURNHAM, DIRECTOR OF WORKS, AND F. D. MILLET, DIRECTOR OF DECORATION. IT IS THE ONE BOOK ON THE SUBJECT WHICH COVERS THE WHOLE GROUND.

Nervous Hires' Rootbeer. Are you, can't sleep, can't eat, tired, thirsty? Blood poor? It's a tonic you want. This sparkling, exhilarating, and refreshing drink, while being far more agreeable in bouquet and flavor than the finest wine or champagne, is at the same time unlike them, being free from alcohol.

WIFE VISITS THE JAIL

Describes It as a Leading Industry at Fort Smith and Tells of the inmates.

An Executioner Ambitious to Hang One Hundred Men But Fell Short of the Mark.

At the Scene of the Great Dalton Fight, with a Graphic Description of It.

Copyright, 1894, by Edgar W. Nye. IN THE SOUTHWEST IN THE SPRING OF THE YEAR.

The jail at Fort Smith, Ark., is one of the leading industries here. I visited it, for it is the only concern I know of that has not felt the depression in business this year.

"Is the warden here?" I inquired of a stocky, good natured man who was sitting by the door in the glorious spring weather.

"No, sir. He is away." "Well, who is in charge now?" "I am," he said, but did not ask me to come in.

Then I gave him my name and asked him if I could visit the institution.

"Yes," he said. "I'll tell you what I'll do. I'll swap shoes with you."

high, which occurred on the 5th day of October, 1892. Colonel Elliott of The Journal kindly piloted us around over the field of battle, and having been on the ground at the time knew every inch of it.

Colonel Elliott in his printed account says that the morning of the 5th dawned bright and beautiful.

Five solitary horsemen might have been seen going toward the town of Coffeyville. One of them used tobacco, but otherwise they were perfect gent.

These men rode into the town just about as the banks were opening, as Bob Dalton discovered on looking at a beautiful gold reporter, presented to him by a prominent citizen by request.

They hit their horses in an alley marked the "alley of death" in the diagram herewith given. Here there are bullet marks yet to show how hot was the conflict in that neighborhood, and an old stable there has been carried away for relics.

Condor's bank, marked exhibit A, faces the plaza. A plaza is a place where Alliance people hitch their teams and where grocers sell hot tamales made of boiled breast of bizzard inside a cornshuck.

Condor's bank, marked exhibit A, faces the plaza. A plaza is a place where Alliance people hitch their teams and where grocers sell hot tamales made of boiled breast of bizzard inside a cornshuck.

and of time the citizens knew that they had hit. Powers staggered to his horse, but as he put his foot in the stirrup a big ball took him in the back, and this noble brute fell under the feet of his horse to rise no more.

Dick Broadwell, who was with Grat Dalton in the condor bank, was shot in the back, but crawled out of a lumber box and took him in the back, and this noble brute fell under the feet of his horse to rise no more.

Dead men and dollar bills were scattered over the alley, and several of the horses had been killed also. It was one of the best things for the country that ever happened, though it cost the lives of four good citizens.

A bullet which struck the window frame of Isham's store, just missed a 50 pound can of dynamite inside the window.

The First National bank had \$1.98 after the robbers had gone, but it is still doing a good business, and those who go there to draw their accounts on the Dalton plan will be rudely ejected from the bank.

Whichever one goes in Coffeyville he finds a winchester behind the door or under the counter, and it is loaded too. I sat down in a car seat when leaving town to go through the Indian Territory, and feeling something odd I rose and found that it was the steel barrel of a gun.

That is really no way to live. When I was younger, I did not fear anything. I killed the first man I saw of men on the frontier, for which I am now heartily sorry.

BUFFALO LITHIA WATER

For Bright's Disease of the Kidneys, Gout, Rheumatic Gout, Rheumatism, &c. The only known Solvent of Stone in the Bladder.

Dr. Thomas H. Buckler, of Duluth, Minn., has prepared a solvent for uric acid, which he calls Buffalo Lithia Water.

Buffalo Lithia Water. I have frequently used it with most successful results, and I have no hesitation in recommending it to all persons suffering with uric acid.

Buffalo Lithia Water. Nature's mode of solution and division in water which has passed through Lignite, and is the most perfect solvent of uric acid.

Stone of the Bladder.

Dr. B. J. Wettington, of Duluth, Minn., reports that he has cured many cases of stone in the bladder of the true acid variety.

BUFFALO LITHIA WATER

Discharged an ounce of calculus matter, completely dissolved in one-half gallon of water.

Removable have been the results accomplished by the use of Buffalo Lithia Water. It has proved not less effective in the treatment of uric acid, rheumatism and all diseases of the uric acid variety.
